"Let Us See To it that A Government of the People, for the People and by the People, Shall Not perish from the Earth."—A. LINCOLN.
Terms: $1.50 per Year

VOL. XXVI
BELLEFONTE, PA., THURSDAY MORNING. JANUARY 31, 1895.
NO 5

It is not likely to be questioned that the New York Chamber of Commerce, composed of the most representative men of affairs in the country's great matropolis, is competent to speak with authority upon all subjects in which the most vital business interests of the people are involved. At a formal meeting of this eminently representative body of men of affairs, held on Thursday last, its members adopted a resolution recommending, first, that the Secretary of the Treasury shall be authorized to borrow, on gold bonds, a sum sufficient for supplying the revenue deficiency for maintaining the gold reserve and for retiring the legal tender notes; second, that the entire question of currency reform by Congress shall be referred to a commission of qualified business men.

The first of these sagacious recommendations provides for the immediate and temporary relief of the Treasury and the businesss community, and the second of them for a permanent determination of the currency question upon a business basis by business men.

Here comes Dr. Dewey, of Meadville,—hitherto unknown to fame, although a near relative of Dr. Tanner, whose forty-day fast sent him to the top as a freak entitled to proper credentials—advocating a no-breakfast scheme as part of a system for sustaining health. Dr. Dewey argues that sleeping and resting are not hunger-producing processes. But the doctor has possibly passed by the appetite of a tramp who always rests.

And again this Meadville guide to economical table conditions declares that nature tells men when to eat, and not alone that, but names the menu. Nature will unquestionably do all that, but when it comes down to furnishing the bill of fare nature only suggests the items. Hungry mortality must hustle for the fluids and solids.

Dr. Dewey should confine his recommendations to the practical side of things. The theoretical cupboards and sideboards are delusions and snares. The man without a breakfast is the man without a country.

The Philadelphia Ledger says: A bill abolishing jury commissioners and placing the duty of selecting jurymen in the hands of the county commissioners has been favorably reported by a committee of the state senate. The county commissioners performed this function for years before the present jury commissioners law was passed, and the last named law was regarded as a reform measure. If it has not given the best results, it is because mere politicians have been elected as jury commissioners. The same trouble will arise if the business is turned over to county commissioners who are of the same calibre. The machinery by which our jury boxes are filled is not of vast importance. It all depends upon the men who mutilate it. If juries are not of the right sort anywhere in the commonwealth the public are primarily responsible, for they select the men who furnish the juries.

New One Dollar Stamp.

The post office department has just issued a new one dollar stamp. It is of steel-gray color and bears upon its face a medallion of Commodore Perry. The new series of stamps which are now issuing are manufactured by the government and not, as formerly, by a private firm. The machinery has been perfected to such an extent that there will be no further complaints about lack of mucilage.

Little Sayings.

Give your attention now to local politics.

This will be nice to think about next summer.

A washout: when the family linen goes over the line.

It's a mercy this isn't the time for Fourth of July picnics.

We cannot do a man a greater wrong than to misjudge him.

Be careful of your actions for they reveal your character.

Self-will is so ardent and active that it will break a world to pieces to make a stool to sit on.

Be rather bountiful than expensive, do good with thou hast, or it will do thee no good.

Exercise gradually increase the physical powers and leave more strength to resist sickness.

A man "too busy" to take care of his health is like a workman too busy to sharpen his tools.

Body and mind are both gifts, and for proper use of them our Maker will hold us responsible.

Lost.—On Tuesday evening, in or about Bush House, a Wallet, with receipts with signature of W. H. Calvert thereon. Finder will be liberally rewarded by returning same to this office.

Odds and Ends.

Russia has 22 national flags and France 21.

If all the eggs of fish came to maturity the ocean would be choked with their bodies.

One grain of gold after leaving the goldbeater's hands will cover 56 square inches.

A French explorer recently found an Assyrian loaf of bread supposed to have been baked 560 B. C.

The British government possesses the greatest number of distinct flags, excluding those from signal purposes, the number being 26.

The vast region called Western Siberia forms less than one-fifth of all Siberia, but contains two-thirds of the population, numbering nearly 3,000,000 souls.

Ladies have never been allowed to represent a constituency in the house of commons, although they have been returned to parliament more than once.

The river Amu, the ancient Oxas of historical fame, has just been ascended by a Russian steamer almost to its source on the way east of Afghanistan.

Lord Napier won the Abyssinian war in 1867 without a single reverse, and Lord Wolseley conducted the Soudan campaign with equally unbroken success.

At the beginning of this century there were so many church festivals and holidays in Rome that it was said not two days in the week were left for labor.

In August, 1890, the C maneuver fleet signaled with search lights to the colliers, 70 miles away. This was some 500 miles south of the Azores, on a fairly clear night.

From an old cannon and 14 miles of discarded torpedo cable Lieutenant Colonel King has made the most powerful magnet in the world. It will resist a strain of 44,800 pounds.

The temperature of the earth advances one degree for every 51 feet of descent. It is supposed that at a distance of 30 miles below the surface metals and rocks are at a white heat.

Courts and Judges.

The judges' retirement bill will come up for action in the legislature this week. Relative to the courts and judges in the state the Patriot gives the following: There are now eighty-five common pleas and eight orphans' court judges in Pennsylvania. There are seven justices of the supreme court and fifty-five associate judges, a total of 100 judges learned in the law and fifty-five not learned in law for five and a half million people. England, Scotland and Ireland combined, with a population six times as large, have not nearly so many. The chief justice of the supreme court receive $8,500 and the associate justices 8,500 and the associate justices $8,000 annually; the judges in Philadelphia, $7,000 and in Allegheny $6,000. Judges Simonton and McPherson, of the Dauphin county court, who try state cases, $5,000 and $1,000 annually for employment of clerical assistance. All other judges receive $4,000, except those in districts with over 90,000 population and only 1 judge, the salary being $5,000. Westmoreland is the only district which comes under this provision. The associate judges receive $5 a day and mileage. The total appropriation for the state judiciary by the last legislature for the years 1893-94 was $1,285,000, or almost as much as the combined cost of running all the other branches of the state government.

A Lexow for Philadelphia.

Philadelphia, Jan. 29.—If the Municipal League, a non-partisan organization whose object is reform in municipal politics, has its wishes acceded to by the Legislature, Philadelphia politics will have a stirring up similar to that carried on by the Lexow Committee in New York City.

A petition will be presented in the Legislature to-morrow from the league asking for the appointment of a committee to investigate the municipal government of Philadelphia. The petition recites that it is almost daily reported in the newspapers that corporate influence is being excercised in city councils to the detriment of Philadelphia.

The petition also refers to Senator Quay's arraignment of David Martin, the Republican leader of Philadelphia, in the United States Senate, and says that Mr. Quay's accusations that Mr. Martin broke "plighted faith" was in reference to the latter's promise to nominate a certain candidate for Mayor of Philadelphia. The petition says that such a promise, if given, was in violation of the law. The league therefor asks that a committee be appointed with full power to examine books and subpena witnesses, and that the league be allowed to be represented by council.

—Sand is recommended as the proper thing to scatter over icy pavements on account of being cleaner than ashes. Sawdust is better still. It not only prevents the pedestrian from falling, but is cleaner and will not cut out rubber and other shoes.

WASHINGTON LETTER.

Washington, Jan. 28, 1895.

From Our Regular Correspondent.)

More water is to be poured into the seive. In other words, the administration has decided to scold Congress and issue more bonds to replenish the gold in the Treasury and to meet the expenditures of the government. Knowing the sensitiveness of business, the republicans in Congress have purposely refrained from saying much that might have been said about the position the administration has taken upon financial matters, preferring to lose opportunities to make party capital to arousing public sentiment which might prove detrimental to the great business interests of the country. It was the same feeling which prompted the republican leaders when approached by the democrats to say that they would offer no factious opposition to any measure that promised to be of the slightest assistance to the Treasury, and to advise the democrats that the best thing this Congress could do for the Treasury was to amend the tariff so as to increase the revenue. This advice might have borne good fruit, but Mr. Cleveland with his usual obstinacy, prevented it by announcing pompously that legislation to increase the revenue would not be satisfactory to him. So Congress has done nothing, and another issue of bonds, the third within a year, is to be made.

Senator Teller correctly characterized the Vest amendment to the Hawaiian resolution, which was adopted by a vote of 24 to 22 in the Senate, as putting on the records of the Senate an absolute falsehood. The amendment declares the sympathy of our people with all efforts to establish republican institutions, reaffims the policy of absolute non-interference with the affairs of other nations, and closes by declaring that the administration deserves approval for maintaining that policy Mr. Teller showed conclusively that the administration had not maintained that policy towards Hawaii, and it would have been easy for him to have shown that it had acted directly contrary to that policy in several other instances, notably at the beginning of the war between China and Japan. Republicans were somewhat surprised to find one republican—Pettigrew—voting with 23 democrats for the Vest amendment, and the hope is expressed that he only did so to be in a position to move a reconsideration later. Senator Frye's speech refuting the silly slander about Hawaiian bonds being sold in New England was a scorcher.

Republicans in the House will do nothing to prevent the passage of the bill for the repeal of the differential duty on sugar from countries paying an export duty on sugar, which will probably be passed by the House this week. They will, however, call especially attention to the declaration of the German government that this sugar duty had nothing to do with the embargo placed on American cattle and meats, notwithstanding Representative Wilson's having in his opening speech in favor of this repeal bill insisted that it did. As ex-Speaker Reed tersely puts it, the bill is so insignificant that "Nobody cares anything about it."

"Scenes in Euoope."

The entertainment given by Mr. G. G. Burnett and wife in the Lutheran church, was a most delightful affair. The church was crowded, and for one and one half hours, the large audience were traveling through England, Italy and France. The views selected were really grand and imposing, beginning with the beautiful ship, "New York City," which conveyed the audience across the Atlantic ocean, then to Paris, ascending the Eifel tower, and taking a view of the royal palace of France. The Tuilerees, Versailles, Napoleon at the battle of Zina, thence to Rome. St. Peter's church, with its world-famed dome, the palace of the Pope, the Colloseum, the Great Roman Amphitheatre, made sacred by the blood of christian martyrs, then to Venice, where the palace and the prison are connected by the famous "Bridge of Sights," so-called from the legend that those passing from the palace over this bridge to the prison, never returned; the famous leaning tower of Pisa, towering grandly toward the sky, and leaning fourteen feet beyond its centre.

To appreciate these views, they must be seen. Description fails; not only could the audience view the exterior of these palaces, etc., but were introduced inside, where the grandeur of olden and modern times were most beautifully exhibited. All this was given free of expense or charge to the church by this noble and christian gentleman, assisted by his accomplished wife; who performed her part most excellently by placing the different views above mentioned on the large screen. Come again.

Not For Pattison.

Washington, Jan. 29.—It is reported here on good authority that the Harrity Democrats, in their anxiety to create a sentiment for ex-Governor Pattison for election as Mayor of Philadelphia, are declaring that Senator Quay is in favor of their candidate. This story is said to have been started by the editor of a Democratic paper in Philadelphia.

Mr. Quay's friends declare that there is no truth in the statement, as Senator Quay, before leaving for Florida, declared that his friends in Philadelphia would all work for Mr. Warwick's election. His son Dick also expressed confidence in Mr. Warwick's success.

As to Newspaper Subscriptions.

Washington, Jan. 29.—Inquiries have been made of the law division of the post-office department as to the legality of the system sought to be enforced by country newspapers regarding the collection of back subscriptions, and the taking of papers from the postoffice or letting them remain there, if the subscriptions were unpaid. The assistant attorney general has made a search of the statutes and determined that there is no federal law covering such cases, and that newspaper subscriptions are governed by local laws like any other private contract.

Mexico Anxious for War.

City of Mexico, Jan. 29.—The government still refuses to disclose the tenor of the Guatemalan note. The impression prevails that it has been considered, and that Mexico has demanded instant payment of the $1,800,000 indemnity, which, if refused, will mean war. Offers of mediation by the United States government will not be considered. The death of Duns, the American, and Murphy, an Irishman, is confirmed. They were murdered and robbed by Guatemalans.

Disastrous Collision.

Bradford, Jan. 29.—A disastrous rear-end collision occurred on the Buffalo, Rochester and Pittsburg this afternoon four miles south of this town, in which thirty-four heavily laden coal cars went over a 20-foot trestle into a ravine below.

Conductor N. M. Roberts, of Bradford, was buried under the wreckage and his [illegible] been recovered. The cause of the wreck was that the first train was stalled with three cars on the trestle and the second train coming around the curve did not see the danger until it was too late to stop, and crashed into it.

Judge White's Claims.

Indiana, Pa., Jan. 29.—An examination of the bill of particulars filed by Judge White shows that Judge White claims about 890 illegal votes, non-taxpayers, and defective affidavits. In court to-day several ballots were opened, and several witnesses testified to receiving pay, and promises from Judge White for their votes.

Judge Blair's attorneys claim that they will produce evidence conclusive that Judge White purchased and sent into the county 1,000 bottles of whiskey shortly before the election.

Stop! Think and Resolve!

Here are some things to remember and put into practice during the present year: If you want a nomination, discount more than one-half the politician tells you. Few office holders care for the boat that carries them over the stream. Be generous. Meanness makes enemies and breeds distrust. Be polite. Every smile, every genteel bow is money in your pocket. Be independent. Do not lean on others to do your thinking or to conquer your difficulties. Trust to nothing but God and hard work. Inscribe on your banner "Luck is a fool; pluck is a hero." Spend less than you earn. Do not run in debt. Watch the little leaks and you can live on your salary. Make all the money you can honestly, do all the good you can with it while you live, and be your own executor. Be punctual. Keep your appointments. Be there a minute before time if you have to lose your dinner to do it. Be conscientious in the discharge of every duty. Do your work thoroughly.

Dangerous.

It is not so very long ago since a successful candidate for congress from Kentucky gave a new turn to tradition concerning his native state. He was attending an afternoon tea. Absent mindedly he took a cup of the innocuous beverage which had the honor of christening the occasion. He was about to take another when the voice of his wife stayed his hand. "My dear," she said firmly, "you must not drink another drop of that. You will ruin your constitution."—Kate Field's Washington.

Subject to Income Tax.

The number of individuals and companies in this revenue district of Clinton, Centre and Union counties subject to tax under the new law by reason of their incomes being over $4,000 is as follows: Individuals, 140; corporations, 26; companies, 14.

Another Paper Printed by Women.

A forty-four page issue of the Cleveland Plain Dealer, written and edited solely by the women of Cleveland, was published Thursday morning. The first two papers were printed on silk and were beautifully embroidered and will be sold to the highest bidder. Already $1,000 has been offered for the first issue. A wide range of subjects are covered by the paper. There were articles upon fifty local topics which have never been touched upon by the daily papers. Each article is illustrated. The issue contains one hundred columns of advertising. The news of the day was also handled exclusively by ladies. That morning fifty young ladies of the city sold the paper on the streets. The proceeds of the venture are to be given to the Central Friendly Inn, a charitable institution. The first paper mailed this morning was sent to Mrs. Grover Cleveland, and the second to Mrs. Governor McKinley. One hundred thousand copies have been printed.

Sifting the Vagabonds.

The charitable organizations of New York are trying a plan to protect the charitably-disposed from being imposed upon by professional mendicants which was adopted in slow Philadelphia long ago. It is that of giving a ticket to every street applicant for alms, to be presented at the office of the central charity organization of the city where the applicant is sure of relief if really needy and of exposure if an impostor. As a matter of fact, the ticket does the work of weeding out the impostors, for the professionals seldom present themselves at the office. They are sure of exposure if they do, and they simply throw away their tickets and try to work the next man or woman they meet for a dime or a nickel.

If the plan is old it is none the less to be commended to our New York neighbors, and is worthy of universal application. Professional mendicancy is greatly on the increase in this country and the only cure for it is to make it unprofitable by drying up the source of revenue by which vagabondage is supported. Unfortunately the ordinary individual intent upon his work has no certain means of determining who among those who beg are in real want and who are impostors. Some give, believing that they are imposed on nine times out of ten, in order to be certain that the tenth applicant gets the relief he really needs.

This method encourages and supports professional mendicancy, and only by the adoption of a system that weeds out the impostors can the evil be cured. It is always safe in any large city where private charities are properly organized to refer applicants to such organizations. They have the machinery to investigate the necessities of every applicant, and usually the means to relieve present and pressing want. The worthy poor will court the investigation and be grateful for the relief which follows as a result, while the professionals are deserving of nothing but the exposure of their lying pretenses.

In New York, as here, however, the trouble with this plan will be that it will not be adopted and adhered to by the majority of those who are importuned for alms. The average man or woman is more sympathetic than judicious and when appealed to for bread or a night's lodging is likely to give the handy nickel or dime rather than the ticket of direction to the charity office. While this sentimentalism is dominant professional vagabondism will thrive and increase.

Fish and Game Bills.

The chairman of the house fish and game committee now has in his possession ten bills, and within a month it is probable that the number will be increased to fifty. There is a bill prohibiting killing of deer for three years; a bill allowing the erection of eel weirs during a certain season of the year; a bill allowing the erection of fish baskets in the inland rivers of the state; a bill prescribing certain regulations by which all owners or occupants of improved or inclosed lands, creek or ponds may prohibit hunting game or catching fish upon such premises, etc.; a bill to provide for the appointment of a game commission for the commonwealth of Pennsylvania; a bill probibiting the buying, selling or exportation of certain kinds of game and fish killed or caught within this commonwealth and providing penalties for the same.

—Bacteria are so small that it takes 100,000 placed lengthwise to measure an inch. The soul of a man who has taken a newspaper a number of years without paying for it, not even with thanks or apologies, is a million times smaller than one of those death dealing insects.

—Colonel A. K. McClure, of the Philadelphia *Times*, will deliver an address on the life and services of the late Andrew G. Curtin, before the Pennsylvania legislature on the evening of January 30th.

Pertinent Paragraphs.

Silk mufflers are au fait.

Days are growing longer.

What sort of a husband has your wife?

Resolve to keep your good resolutions

What to-morrow is to be human wisdom never learns.

Plenty of time to enjoy yourself—Lent is late this year.

The devil and some women are not as bad as they are painted.

"The only sure thing about life," remarks the philosopher, "is death."

When you look at their dresses, it's no wonder that society women seem cold.

Thr proof of the pudding lying in the eating often depends upon the digestion.

Be sure you are right, and then stop, if there is any danger of your going wrong.

There is always something coming to us but it is not always just what we prefer.

The man who blows himself a great deal will find some day that the blow is fatal.

The man who plants a birch tree near a school house, little knows what he is conferring on posterity.

"I see the celebrated singer, Miss Manywed, has become reconciled to her husband." "Indeed! Which one?"

She—"I honestly believe the love making on his part is real." He—I shouldn't wonder; I hear that her diamonds are genuine."

The new year is evidence trying all the different kinds of weather. It is hoped that it will finally find a first rare quality of sunshine.

A pretty schoolmistress not a 100 miles from here, tells the following story which is rather amusing: "I asked one of my classes to put the nouns "boys," "bees" and "bears" into a sentence. The scholars thought intently for a few moments when one ragged youngster with a look of victory on his face, raised his hand. "Well Johnny" said the teacher, "what is your sentence?" "Boys bees bare when they go in swimmin.'" The teacher did not call on any more of her class.

The Passing Apple.

The country is rapidly approaching the time when there will be a permanent scarcity of the finest fruit that grows. We mean the apple. The apple orchards in the United States have been allowed to go slowly but surely to ruin, and Lower Canada is now depended almost entirely upon to supply the Atlantic coast market with apples. In Northern Michigan there has been a considerable increase in the orchard acreage, but this side of the Allegheny mountains no apples are now raised that are worthy of the name. There are thousands of acres of farm land now devoted to the raising of wheat at 55 cents a bushel, which, with half the expense and one tenth of the attention could be transformed into productive and profitable orchards. Fine apples cost two or three times as much as fine oranges, and the energetic farmer who will look over his soil and see what it needs to adapt it to the raising of apple trees and go into the business has a fortune before him.

State's Catalogue.

A copy of the annual catalogue of The Pennsylvania State College has been received, showing an attendance of 310 students in that growing institution for the present year. The faculty and instructors number 43. Courses of study are offered along technical lines in Agriculture, Biology, Chemistry, Civil Engineering, Electrical Engineering, Mathematics, Mechanical Engineering, Mining Engineering, and Physics and in General Science and Latin Science. The facilities and equipment for teaching studies embraced in these different courses and the preparation required for entrance, are fully shown in the catalogue. Being endowed by the National and State governments, tuition is offered free.

Persons interested in examining the advantages of different colleges can obtain a copy of this catalogue by addressing the president, Dr. Geo. W. Atherton, State College, Penna.

Eat Apples.

Every one ought to know that the very best thing to do before retiring for the night is to eat apples. Persons uninitiated in the mysteries of the fruit are liable to throw up their hands in horror at the visions of dyspepsia which such a suggestion may summon up, but no harm can come to even a delicate system by eating of ripe and juicy apples just before going to bed. The apple is an excellent brain food, because it has more phosphoric acid in easy digestive shape than other fruits. It excites action of the liver, promotes a sound and healthy sleep and thoroughly disinfects the mouth. This is not all. The apple helps the kidney secretions and prevents calculas growths, while it obviates indigestion, and is one of the best preventives known of diseases of the throat.

CRUEL TREATMENT

That Received by George Maffitt from His Mother.

Huntingdon, January 23.—Mrs Mollie Maffit, second wife of Daniel Maffitt who is now in compulsory retirement in the western penitentiary at Allegheny, for one year, two months and fifteen days, has just had a hearing before Magistrate Edwards, on the charge of furnishing liquor to, and cruelly beating her 8-year-old stepson, George Maffit. Harry A. Baker made the information against the woman, and testified on three different occasions he had seen her beat the boy with a stove wood stick; that he knew of her giving him intoxicating liquors. Little George was also a witness against his stepmother, and in plain, unmistakable language, he told a story that was a surprising revelation to some of the spectators present. The stepmother listened to it all but said not a word, however remarkable that may appear, until she was being escorted by an officer to jail, and then her evident mutterings of contradiction were only audible to the officer who had her in charge.

Little George stated that his stepmother and several of her gentlemen callers, of both colors, had frequently given him whisky, and that he had been under the influence of the ardent numerous times in consequence. Often after whisky had been given him he would be asked by his stepmother to go on the streets and beg money, and upon refusing to do this would be pounded with a stove wood stick. A refusal to cut wood, according to his statement, always resulted in his being soundly thrashed and beaten with a club.

It was developed that Mrs. Maffitt's callers were numerous and of several shades and colors. The little boy witness was glad to be away from the alleged tortures inflicted by his stepmother and is much better pleased with the home given him by his uncle, Alex Moore, who resides on Second street. Mrs. Maffit was remanded to jail in default of bail.

Little Fear of War.

Washington, Jan. 25.—Isaac P. Gray, Minister to Mexico, arrived here today. He said he did not think war would be declared between Mexico and Gautemala. It is generally believed here that the difficulties between the two counties will be settled with the United States as arbitrator. Senor Romero, the Mexican Minister, says he does not anticipate a war.

City of Mexico, Jan. 25.—A telegram has been received at the United States Legation here from Secretary Gresham expressing President Cleveland's hope that Mexico and Guatemala would agree upon some favorable means of settling the boundary dispute between themselves, or, failing in that, would agree upon a reference of the controversy to friendly arbitration. This message has been transmitted to President Diaz.

Goff Fined a Sick Man.

New York, Jan, 25.—Recorder Goff fined Emanuel M. Levy, a member of the Grand Jury, $250 for contempt in having absented himself from its sessions without notice. Mr. Levy said he had an infirmity of 22 years' standing and until this morning he had not left his room since January 9. He said he had not received any notification from the Grand Jury and supposed, there being a very full attendance, that his absence would not cause inconvenience. He pleaded that this odium be not put upon him, but the recorder refused to listen to him, ordering that the fine be paid by Monday.

He Trusted A Woman

York, Pa., Jan. 23.—Robert Schall was arrested here to-day, charged by Charles Still, detective, and Deputy Sheriff Brenneman, with having murdered Richard Jordan, of this city, on November 28, 1893 at his home here. The murder has remained a mystery ever since it was committed, and now the detectives claim they have such a chain of evidence as will lead to a sure conviction. Schall trusted his secret to a woman who betrayed him.

Was Frozen to Death.

Doylestown, Pa., Jan. 20.—Sitting in his chair frozen stiff, with the front door of his house open, Asher Dungan, a butcher 83 years of age, was found at his residence, just south of the borough, this morning. There were a number of cuts and bruises on his forehead and his face was covered with blood. This first led to the supposition that he had been murdered but after a post mortem examination a jury decided that Dugan had an apoplectic fit, after which he had frozen to death.

A Pointed Pointer.

The Raftsman's Journal says: A Clearfield parson was complimenting the tailor on some mending which he had done for him. In the course of the conversation he, however, incautiously observed: "When I want a good coat made I go to Philadelphia; they make them there." Before leaving the shop he inquired, "By the way, do you attend my church?" "No," replied the tailor, when I want to hear a good sermon, I go to Philadelphia. They preach them there."

Kicked by a Horse.

On last Saturday Daniel Runkle, of Spring Mills, was badly injured by a kick from a vicious animal. He had just finished currying the animal and was walking away when the beast kicked him square in the back with both feet, with sufficient force to send him clear out of the stable, a distance of ten feet. Since then he has suffered severely from internal injuries.

In Other Counties.

Seven new licenses were granted in Lebanon last week.

A trolley line from Lebanon to Shaefferstown seems to be an assured fact.

An association has been formed in Pottsville to erect and run a hospital.

The day for Garrett's execution, the Lebanon wife murderer, has not yet been fixed.

An agricultural and horticultural association has been organized in Lebanon county.

A resurvey of Norristown has been completed to make a new map of that beautiful borough.

The Mt. Gretna Ice company, of Lebanon, stowed the crystal last week at the rate of a ton a minute.

The lawyers are reaping rich harvests in fees for services in securing liquor licenses in all parts of the state.

All the new applicants for liquor license in York county were refused at this term of the court of quarter sessions.

Many public schools continue to be closed in different parts of the state because the measles are contagious in such localities.

Lebanon county has more whist parties than prayer meetings, considering its ratio of population, than any city or county in the state.

John M. Thome, a native of Lebanon county, well known in Lebanon city, is at present director of the Cordova observatory, at Buenos Ayres.

The Sunday Breakfast association, of York, is furnishing a large number of way faring men and women with that meal every Sabbath morning.

Allentown is reaching out to absorb Catasauqua in a combination for a "New Allentown," but Catasauqua is not quite ready to be swallowed.

Fatal coasting accidents are occurring in all parts of the state, because those who engage in the pastime are reckless of their own and the lives of others.

Children who pick coal along railroad tracks are reported among the most frequent so called "accidents," in losing their lives or their limbs on the highways.

John H. Homer, night baggagemaster in the Reading railroad depot at Lebanon, is under bonds of $1,000 to answer a charge of rape, abortion and adultery.

Samuel Norton and his wife, who live at Buyerstown, in Lancaster county, had a serious runaway at Leaman Place on Sunday, and narrowly escaped fatal injury.

Crows are reported flying in great numbers in parts of Montgomery county, an omen that what is left of winter will be mild and that spring in that region will be pleasant.

Williamsport is agitating for the adoption of the most approved scientific and practical means to provide protection for that city when floods visit it. Large sums of money will be expended in this interest.

There seems to be a complication about making contracts for text beeks in many school districts of the state, the trouble being that one set of directors charges another with fraud and corruption in managing the contracts.

The engineer and fireman at S. Morgan Smith's machine works, at York, made a narrow escape from serious injury Saturday evening. When they were in the act of blowing out the steam boiler the valve blew out. The engineer escaped, but the firemen, Mr. George Rauch, had his left wrist and arm badly scalded by the escaping steam.

Why She Wont's be a Servent.

The reason the native American girl will not become a servant, in spite of the arguments of the rational and godly, is that service is the sole employment in this country in which she can be told with impunity that she is the social inferior of any one else. It is the telling which she cannot put up with. It is one thing to be couscious that the person you are constantly associated with is better educated, better mannered and more attractive than yourself, and it is another to be told at every opportunity that this is so. In the shop, in the factory, and in other walks of life, whatever her real superiors may think of her, they must treat her as an equal. The happiness of her life, and its mainsprings, too, lies in the consciousness that she is free to become the first lady in the land, and that she herself is to be her sole critic and detractor. Why is she not right in refusing to sacrifice her independance? Why should she sell her birth-right for a mess of pottage?—From "The Art of Living—The Dwelling," by Robert Grant in the February Scribner.

To Prevent Forest Fires.

The forestry commission has drawn and Mr. Meyrick has introduced at Harrisburg a bill intended to suppress forest fires by providing for forest wardens, imposing penalties for carelessness in setting forest fires, and requiring any one called upon to assist in suppressing them. In addition to special fire wardens the supervisors of roads are made fire wardens within their districts. Forest fires annually cost this state a vast sum, and a measure for their suppression is very greatly needed. The provisions of this act are simple and efficient and it ought to become a law.

A Democrat for Money.

A gentleman recently asked William M. Singerly, late democratic candidate for governor, why he is a democrat. Mr. Singerly responded "you would be a democrat, too, if you could make two hundred thousand dollars per year by publishing a democratic newspaper."

THAT SHIRT FACTORY.

The Enterprise Bids Fair to Ptove a Success.

Another meeting was held in the court house on Thursday evening in the interest of securing the talked-of shirt factory for Bellefonte. The committee appointed on Wednesday evening made its report, which was favorable, and also recommended the appointment of another committee to visit Lewistown and make a thorough investigation of the factory's career at that place.

If everything there is found satisfactory, then effort will at once be put forth to raise the required amount of money, $10,000, necessary to start the factory; and, if this can be raised in due time, it is beyond question that the factory will be up and in operation inside of thirty days. This is indeed cheering news and there is now some hopes of a "greater Bellefonte" in the very near future. If the enterprise proves a success, it is more than probable that it will be started in the large room over McCalmont & Co's implement store, which will be plenty large enough to accommodate the employment of about fifty hands, most of whom will be girls, the number with which it is expected to begin operations. Now that there is a chance of securing something for Bellefonte, every body should do all they can to help the cause along.

Orange Blossoms.

Thursday morning's Altoona *Times* says: "The Third Presbyterian church, which was modestly decorated for the occasion, was the scene of a pretty wedding last evening, the contracting parties being Mr. Frank C. Williams, superintendent of the Bellefonte Electric Light company, and Miss Ella J. Coffman, of 310 Second avenue. The ceremony was performed by the pastor, Rev. J. E. Irvine, in the presence of quite an assemblage of the relatives and other friends of the principals. Miss Maud Love, of Bellefonte, a cousin of the bride, and Mr. William Coffman, a brother of the bride, were the attendants. The ushers were Mr. H. S. McFarlin and Mr. J. D. Keefer, of Altoona. Miss Hannah Hamilton, of Bellefonte, presided at the organ and rendered Mendlesohn's professional and recessional. After the happy couple were united in the holy bonds of matrimony the bridal party was tendered a reception at the bride's home, 310 Second avenue. Some forty people were present. A bounteous collation was served. Mr. and Mrs. Williams leave this morning for Bellefonte, their future home."

[The happy couple arrived home at 9.32 that morning and are now receiving the congratulations of numerous friends—Ed.]

Applications for License.

The following persons have filed their applications for license for the year 1895: Tattersal Ingram, Philipsburg, for tavern; Richard Ingram, Philipsburg tavern; James S. Rush, Potter twp., tavern; J. N. Neubauer, Bellefonte, tavern; John Delige, Philipsburg, restaurant; Dorsey P. Myers, tavern, Philipsburg; Henry Yeager, Bellefonte; W. S Musser, Millheim; Willis Weaver, Millheim; Tempest Singer, Philipsburg; John C. Mulfinger, Spring twp., wholesale; Gotlieb Haag, Bellefonte; R. C. Bratch, Coburn; D. D. Bartges, Centre Hall, making fifteen applications thus far and several more to follow.

—The coasting in Bellefonte is now very good and is being taken advantage of by every old and young boy in Bellefonte who is fortunate enough to own a sled.

THE CHANGE OF LIFE

A PICTURE FOR WOMEN'S IYES,

With the Hope That It May Do Some of Them Good.

[SPECIAL TO OUR LADY READERS.]

To-day there is the happy mother, healthy boys and girls, sunshine, music, amusement, the church, the romp and the ramble, the country and seashore. Whatever healthy minds in healthy bodies may desire, that they may have, and mother is ever ready to join with them in the pleasure and fun.

Years come and go. The boys and girls grow up to men and women. Mother's hair is turning white: her steps are not so elastic, her spirits flag; there is an uneasy look in her dear eyes.

What can be the matter with mother?

She is approaching the most important crisis of her life, "the change of life." Those watchful eyes detect the evidences. Years bring this change demanded by nature. What preparation have you made to carry the brave mother safely through it?

Within a comparatively short time the issue will be decided. Either nature fulfilling the law in proper, healthful manner, or—there is the wreck of a noble woman for you to grieve over.

There is salvation in *Lydia E. Pinkham's* Vegetable Compound. It will carry the mother safely through the inevitable change in her physical life.

All reputable druggists keep for you this grand remedy. See that "mother" has it, for the Lydia E. Pinkham's Vegetable Compound was won from the heights of medical science by a woman for all women nearing the change of life.

Judge Love has affirmed the report of J. F. Schock, auditor in the Bell-Myton case, that Myton was entitled to the priority of judgment on the docket. This is case in which Bell and Myton were running to the Court House to enter judgment against Mr. Davis, when Myton, who was ahead, was stopped by Policeman Rohland, and Bell thereby passed him.—Huntingdon *Local News*.

Your Watch Insured Free.

A perfect insurance against theft or accident is the now famous

Non-pull-out

BOW,

the only bow (ring) which cannot be pulled or wrenched from the case. Can only be had on cases containing this trade mark.

—MADE BY—

Keystone Watch Case Company, of Philadelphia.

the oldest, largest, and most complete Watch Case factory in the world—1500 employees; 2000 Watch Cases daily.

THE GOLDEN SNAKE.

More of the Yellow Stuff will Go Out Next Week Than This.

New York, Jan. 25.—Gold shipping houses say that more gold will be shipped next week than was this week. It is generally conceded that the gold movement can now be stopped by only one remedy—a large enough issue of bonds to cause a higher money market. A permanent 2½ per cent. money market would stop the gold exports, as the foreign bankers would quickly take advantage to make sterling loans, and the outward flow of money would be immediately checked. Despite rumors of bond issues, bankers who are usually well informed say that they have received no information of any impending call for bond subscriptions. One authority, however, believes that the administration cannot afford to wait any longer for action on the part of congress, and will issue a bond call next week, perhaps not later than Monday. There was also some belief that the secretary might choose to issue 4 per cent. bonds as the premium would be less than in the case of the 5 per cents.

The rapid depletion of the gold reserve has excited alarm abroad and foreigners have been pouring into this country during the last six weeks selling many high class railroad bonds payable in currency, which were tenaciously held all during the panic. For the first time since the panic there was developed this week a weak tendency in gilt edged securities. It is believed that unless the situation changes very radically, the whole treasury reserve will melt away in about three weeks unless there is a bond issue in the meantime. There was no other subject discussed in financial centres.

The clearing house ommittee met this afternoon and were joined by National Bank Presidents Simmons, Cannon and Tappan. The situation was discussed, but no action can be taken now by the banks, so that an exchange of views was the only result of the conference. Houses with foreign connections say that the foreigners are exceedingly puzzled by the inaction of congress and cannot understand why the simple remedy, at least of the issue of low rate gold bonds, should not be authorized by congress. Understanding nothing of the complication of politics in this country, they fear that there is something radically wrong in our financial system or that the sentiment of the people really favors a silver currency basis, and consequently are liquidating their holdings of American securities. This feeling is intensified by some of the foreign houses, which have become wearied by the situation and have advised their foreign correspondents that a silver currency basis appears to be inevitable.

Ram's Horn Blasts.

Faith always has a shining face.

Whatever you do make it shine.

Be ready to grant favors in return.

The only victory over love is flight.

We walk faster when we walk alone.

Friendship often seems a mere name.

It is much better to suffer than to sin.

The bright side is always the right side.

Words pass away, but actions remain.

Every man-made god has a heart of stone.

Every noble activity makes room for itself.

Make yourself a necessity somewhere.

Show appreciation for every favor received.

Charity in the heart tips the face with kindness.

Misfortunes have their heroism and their glory.

We must laugh at man to avoid crying for him.

Private reverses may be needed for public good.

There are no "short cuts" to honest government.

Take a vital interest in your employer's business.

Marriage has always been the conclusion of love.

Uncertainty is painful for all nations and for all men.

Love can be misunderstood, but never over estimated.

In coveting another's possessions we are apt to lose our own.

No man is good who believes himself simply because he has to.

It is well to hope for success, but much better to deserve it.

Have nothing to do with the thing that bad men are in favor of.

The thing most dangerous is the one that does the most to make us selfish.

Waited-for opportunities are usually more or less frizzled at the edges.

The worldly prosperity of a wicked man is a chariot in which he rides to ruin all the faster.

It Must be Cold Comfort.

William M. Singerly, the late Democratic candidate for governor, takes great comfort out of the fact that the people turned out in great numbers at the meetings during his convass of the state, which lead him to believe that he would be elected. Notwithstanding his defeat he soothes his feelings because he met so many democrats of the State and made their acquaintance, as well as gaining six pounds in weight. It is estimated that this six pounds of flesh cost at least three thousand dollars per pound.

—It is said that Mr. G. W. Rees and Harry Schreyer intend opening up a grocery store in the near future in the room now occupied by Schreyer as a carpet store.

Interesting State Notes.

Lancaster county has won its suit against Lancaster city for $70.000.

There is an earnest religious revival in some of the Methodist churches of York.

Forty Evangelical churches in different parts of the state are now on the market and will be sold to the highest bidders.

An unusual number of men and women are now held as bigamists in cities of this state. John A. Werner was arrested at Allentown.

An occasional starving man, woman and child are discovered in the vicinity of Pittsburg, whose wants are relieved as soon as they are discovered.

The use of deadly weapons has become so careless in their handling in the rural regions as to render it dangerous for travelers on the highways.

There seems to be a scourge of fever raging in parts of Northampton and Lehigh counties, which the doctors in charge are not handling very successfully.

Editor Hinton, of the Athens Gazette, has been appointed adjutant and James Hall quartermaster sergeant of the soldiers and sailors' encampment of Bradford county.

Bar associations and business men are moving to establish a system by which the laws enacted by the legislature shall be so drawn as to make their terms easily understood by every citizen.

Petitions are being circulated in the mining regions of the state appealing to the legislature for the enactment of laws to prevent the streams used for domestic purposes from being polluted by coal culm.

Again there is a determined effort on the part of judges of quarter sessions courts, to prevent boys from being present when in session in nearly all parts of the state, but the urchins manage to be there in large numbers.

The old folly of extravagant displays at funerals, by people who cannot afford it, is again indulged in the cities, and as usual elicits unfavorable comments. Suits for the collection of debts for funeral expenses are not uncommon.

A citizen drawn as a juror in a western county paid no attention to the summons, and, when called into court to explain, said that he regarded his private business as of first consideration. He was astonished when the judge imposed a fine on him, and a severe rebuke for his neglect of his public duty.

To Sink a Second Well.

A meeting of directors of the Salt Lick Gas and Oil Company was held at the Fallon House, Lock Haven, Tuesday afternoon those present being Hon. J. W. Smith, Hon. George R. McCrea, and Samuel Christ of this city. J. C. McCloskey, T. R. Buddinger and R. C. Gilliland, of Bedford and Congressman M. H. Kulp of Shamo in.

The directors decided to continue the search for gas and oil in the Karthaus region and to drill other wells in the vicinity The well which was recently put down by the company was drilled to a depth of 1,975 feet, and the indications, for both gas and oil met while the drill was working were so favorable that the company and he drillers who are experienced men, are confident a new oil field can be developed in the Karthaus region.

Another well will be put down at once about three miles from the one recently drilled. The second well will not be drilled to a greater depth than 1,700 feet.

This decision of the company to continue prospecting at considerable outlay of money is cheering news. The drilling of the first well developed such strong indications of oil as to lead to the belief that a second effort will be successful.

Horse Stolen at Snow Shoe.

On last Sunday night a little black mare weighing about 900 lbs and with white mark on face was stolen from in front of a church in Snow Shoe. The animal belonged to T. B. Buddinger and can be told very readily by her habit of laying back her ears and chewing the bit rapidly whenever a person approaches her. The mare was hitched to a sleigh and a liberal reward is offered for the apprehension of the thief or any information leading to the recovery of the property.

Vicksburg Depot Burned.

The depot at Vicksburg, on the L. & T. R. R., Union county, was destroyed by fire early last Friday morning. Together with the building were destroyed a lot of merchandise, a number of barrels of coal oil, and the accounts, papers, and books of the agent. It is supposed to be of incendiary origin, as it started in the eastern part of the building, the stove being in the western part. Mr. James K. Reish's lumber near by was saved.

GETTING RID OF A QUACK.

A Man Who Played the Hair Oil Trick Upon Him to Advantage.

In a New England city not many miles from Boston is an old quack doctor known throughout the town for his large supply of "cheek." He had no regular abiding place, but picked up his lodgings around at different cheap boarding houses and lived on the profits of his patent medicines. He spent a good deal of his time in a certain drug store, and, moreover, he was accustomed to go there every morning and use the back shop to make his toilet in. He had an old greasy bottle of hair oil and a brush and comb, which he kept in the shop without leave from anybody. The proprietor got rather tired of having him around so much, and therefore he resorted to stratagem to get rid of him.

He took the hair oil bottle, poured out the oil and carefully replaced it with a mixture of thin fish glue and bay rum. Then he put the bottle back in its accustomed place.

The next morning the old quack showed up, and after some cordial greetings to the proprietor of the store he asked leave to use the back shop, as was his habit.

"Certainly, certainly," responded the druggist; "the back shop is at your disposal."

Whereupon the old gentleman started in to arrange his toilet. Pouring out a liberal dose of the mixture in the oil bottle, he rubbed it thoroughly over his head till his hair was completely saturated with it. Then he carefully combed and parted his somewhat long locks, and placing his old stovepipe hat squarely on his head he passed out, wishing the proprietor a pleasant "Good morning."

He was seen again after several days by the druggist, but it was not in the drug store. He was crossing the street, and he wore a new soft hat and an extra close hair cut. The druggist went down to a neighboring barber shop. "Did Dr. W. come in here on Wednesday?" he asked.

"I should say he did," replied the barber, "and a madder man than he was never stood up."

"What did you do for him?" inquired the druggist.

"I cut his hair to get his hat off, and then I cut the hat to get the hair off. Liquid glue is pretty strong when it's dry, ain't it?"

"You bet it is," said the druggist.—Boston Journal.

PROTECTION IN ENGLAND.

Walter Besant, the well known English novelist, has been looking into Britain's trade policy and is not pleased with it. In a well directed attack upon free trade fallacies he roused inquiry and forced Sir A. Kay-Shuttleworth and Sir J. Hibbert to admit that a great sum of public money went abroad for supplies which could be produced at home. Mr. Besant brought to light many things not generally known. The Danes furnish more than half the pork used in the British navy; lubricating oil is supplied from America; boilers were recently brought from France and used in equipping gunboats. Bentwood chairs, which could be easily manufactured in England, are imported from America; the British fleet is supplied with Danish butter, and the admiralty use German boats; foreign paper, Bavarian pencils and Swedish matches are supplied to the government stationery offices.

All this means loss to labor at home. "Let us remember that $5,000,000 spent out of the country," argues Mr. Besant, "deprives at least 1,500 British workingmen of their daily bread, and that it sends to the workhouse or abroad at least 7,500. Is that a matter to be disregarded?"

PROTECTION MUST PREVAIL.

It is evident from the present condition of labor that a great and distressing change has been and is pending. To make a mistake in deciding why this condition of industrial unrest and idleness has set in would make matters worse. To fairly understand what the trouble is intelligent action can be taken.

The Democratic party proclaimed the old Calhoun doctrine of free trade. The people elected them on that issue. As soon as this was done business adjusted itself for the change. It meant the destruction of our industries or a heavy reduction in wages. To look elsewhere for the disease and to apply any other remedy than protection will only prolong the disaster.

We are in the midst of what our past experience teaches us would result from the election of a party to power that would abandon the protective policy. After 1816, after 1833 and after 1846 tell the same story. Everywhere an abundance of everything to add to our prosperity except work for our people. Without protection work for the American laborer at American wages has never been, and will never be, found. The party that will not give us protection cannot give us prosperity.

Measuring Rhode Island.

The following incident I heard related of a recent banquet. Captain Wimans of Rhode Island was there. He is a venerable looking, but lively old gentleman, with white hair flowing down over his coat collar and with a face resembling that of the late Henry Ward Beecher. The toastmaster arose to introduce Captain Wimans and jokingly said: "The captain hails from that famous state of Rhode Island. Let me see, how many square feet are there in Rhode Island, captain?"

Quick as a flash the little old gentleman was standing, and with his white hair flowing over his shoulders he exclaimed:

"Rhode Island is not measured by feet, sir, but by heads."—Seattle Post.

Embarrassing.

Miss Elder—Yes, Mr. Skidds, the servant who admitted you has been in our family for 40 years.

Mr. Skidds (anxious to say something)—How interesting! Of course she is attached to you from having nursed you in your infancy.—Detroit Free Press.

A Bad Pay.

"Did you call on Mr. Putemoff?" askea the merchant of the man who had been out collecting.

"Yes, sir."

"Did he pay anything?"

"Not a thing. I couldn't even get him to pay attention."—Washington Star.

—And "Harrington" hit it in part when he telegraphed the Bellefonte postmaster that we would have a good fall of snow on Friday night—only it was not the "biggest of the season."

Had A Delightful Time.

The Lutheran church social on Thursday evening at the residence of H. Y. Stitzer, on High street, was a very pleasant and enjoyable affair. Emanuel Brown who had charge of the refreshments, performed his part to the satisfaction of all. The ice cream was first-class, the oysters large and the waiters pretty and obliging, but in the midst of all these enjoyments, when as many as could were crowded in the front parlor, eagerly and intensely enjoying a social play, A. A. Dale, Esq., made his way into the circle and requested a suspension of the play for a few minutes, when instantly all eyes were turned on him, wondering what this interruption meant, and the hushed silence and eager attention did not deter him in his mission, when he broke the silence by addressing Rev. E. E. Hoshour and requesting him to stand up, as his remarks were chiefly intended for him. And then, in a short and eloquent address, he presented Rev. Hoshour with a splendid overcoat as a gift from the congregation in appreciation of his nearly seven years' service among them as their pastor. Mr. Dale even quoted appropriate passages of scripture (probably learned in his early days) about supplying food and raiment, etc.

Rev. Hoshour, who was really taken by surprise, made a fitting and appropriate response, thanking the congregation for this kindly remembrance and appreciation of his services among them, and felt glad that at the end of nearly seven years' service, this warm feeling between pastor and congregation was not diminished; and, as this garment would warm his person, would at the same time warm his heart toward the congregation, not only while it continued to do service, but after last thread had ceased to do him service. And again thanking them, he accepted the coat in which it was given. He then put it on and the usual remarks and opinions were made, after which the Social continued with even warmer feeling. Altogether it was an evening pleasantly spent. Mr. Brown counting his proceeds found a snug little balance to pay over to the treasurer, and the many guests reluctantly dispersed to their respective homes.

They Appreciated It.

The following is self-explanatory and needs no comment:

MR. E. T. TUTEN,

DEAR SIR:—I have been instructed by the Commander of Post 261, G. A. R., to tender to you the thanks of the Post for book bearing the title "Officers of the Army and Navy who served in the Civil War." Be assured we shall value it highly and consider it one of our most valuable collections. Yours truly,

A. G. RAGER, Adjt.

Post [illegible]1, Milesburg, Pa.

His House Was Burned.

Mr. A. D. Klinefelter, an employe on the P. & E railroad, received a message at Glen Union yesterday afternoon stating that his house had been burned at Millheim in the morning and that he should come home at once, as his family were homeless. Fortunately Mr. Klinefelter held a policy of $1,000 in the Sugar Valley Insurance Company.

PATENTS
CAVEATS, TRADE MARKS
COPYRIGHTS.
CAN I OBTAIN A PATENT? For a prompt answer and an honest opinion, write to MUNN & CO., who have had nearly fifty years' experience in the patent business. Communications strictly confidential. THE REVIEW OF REVIEWS
Edited by ALBERT SHAW

THE REVIEW OF REVIEWS
NEW YORK, Astor Place

IT WAS in April, 1891, that the first number of the American Review of Reviews was printed The new idea of giving the best that was in the other magazines in addition to its own brilliant, original articles, took America by storm, as it had taken England—though the magazine itself was not at all a reprint of the English edition. It deals most largely with American affairs, and is edited with perfect independence, in its own office.
The Review of Reviews is a monthly, timely in illustration and text, and instantly alive to the newest movements of the day, to a degree never before dreamed of. Thousands of readers who offer their commendations, among them the greatest names in the world, say that the Review of Reviews gives them exactly what they should know about politics, literature, economics and social progress The most influential men and women of all creeds and all parties have agreed that no family can afford to lose its educational value, while for professional and business men, it is simply indispensable The departments are conducted by careful specialists, instead of mere scissors-wielders, and scores of immediately interesting portraits and pictures are in each number.
All this explains why the Review of Reviews has come to a probably unprecedented success in the first three years of its existence. For 1895 it will be more invaluable than ever.
Agents are reaping handsome profits. We give liberal commissions. Send for terms.
Annual Subscription, $2.50
Sample Copy, 10 Cents, in stamps
THE REVIEW OF REVIEWS
13 Astor Place, New York
THE REGULAR DEPARTMENTS
Besides the special articles and character sketches of thrilling interest and timeliness, the Review of Reviews has these regular departments:
The Progress of the World.—An illustrated editorial review of the month's events which thinking, alert men and women should understand in their proper significance and proportions.
Leading Articles of the Month.—This department, and the succeeding one, The Periodicals Reviewed, embody the idea on which the magazine was founded and named. All that is best in the other magazines, American and foreign, is here brightly summarized, reviewed and quoted from.
Current History in Caricature chronicles the month's history through the picturesque means of the successful cartoons that are appearing throughout the world.
Other departments review carefully new books, give lists and indexes of all articles in the world's magazines, and furnish a terse daily record of current events.

SCENE OF GREAT EXCITEMENT.

A Trolley Car the Prime Cause of the Trouble.

Brooklyn, N. Y., Jan. 27.—There was a singular accident and a scene of great excitement at East New York at 8.30 to-night. A trolley car of the Fulton street line was the prime cause of the trouble. The trolley pole became entangled with the overhead wire in some manner and a shower of sparks rained down on the roof of the car, setting it on fire. This was alongside the Alabama avenue car house, and within the car house was stationed Wendell's battery. A portion of the Sixty-ninth is also stationed there a guard of the battery.

Some of the militiamen tried to pull the pole down and got shocked. Others who jumped on the platform of the car, jumped off again and declared that the car was alive with electricity. While this was going on some one rang a fire alarm and a couple of fire engines dashed up. Just as the members of the battery ran out of the car house the engines emitting showers of sparks from their funnels and dropping glowing embers on the street, were driven straight at the four caissons belonging to the battery. In these were stored 1,000 pounds of powder, beside fuse, caps and shells.

The men of Wendell's battery ran, yelling like Indians at the firemen, and ordered them to stop. One of the engines was stopped less than six feet from a caisson. Showers of sparkes fell all around. The horses were seized by militiamen and engine, horses and all were dragged away in a hurry. The excitement was over in five minutes, but it was intense while it lasted.

It is rumored that the Sixenth regiment and the Sixty-ninth battalion, and possibly the Seventy-first regiment, are to be ordered home to-morrow.

Terry's Silvereen.

Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take the place of silver in the manufacture of fine tableware.

Silvereen is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

We want every one to have a chance to compare silvereen with silver, so for the next sixty days we are going to give away one half dozen Silver Tea Spoons *Free*, to every person who will send for one of our Silvereen sets, containing six Tea Spoons, one Sugar Shell, one Butter Knife. If at any time the Sivereen goods do not prove satisfactory, return them and your money will be refunded. Remember we give you the Silver Spoons. Send at once as this offer is for 60 days only.

Price of Silvereen set $2.00.

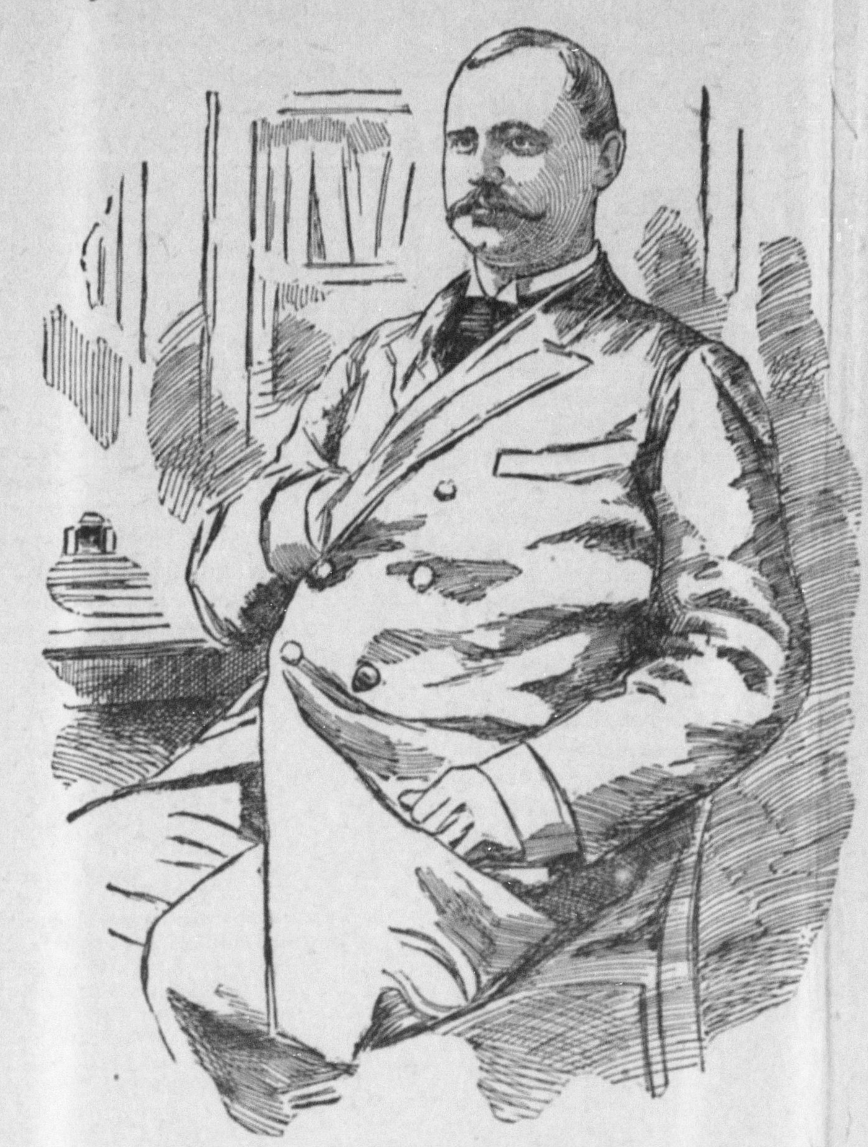
ALMOST A MIRACLE!

A Well-known Railroad Man's Experience. Life Saved in a Way Which is Wonderful, and Ought to be Told Everywhere Far and Wide.



MR. CHARLES ANNABLE.

There is no better known railroad man than Mr. Charles Annable, who resides at 20 Jordon Ave., Brunswick, Me. He has occupied trusted positions for thirty years on the Maine Central R. R.

"Yes" said Mr Annable to the writer, "I can tell some remarkable stories from my long thirty years, railroad experience, but something has happened recently which is of the greatest importance to the people. Before I speak of myself, however, let my wife relate her wonderful experience."

"I have been troubled," began Mrs. Annable, "so bad with neuralgia that I could not turn my head in bed. It seemed as though my head was paralyzed. I was so troubled with heart disease and palpitation that a good many nights I thought I might pass away during the night.

"I suffered severely, and expected every day would be my last. My head seemed sometimes as though it was paralyzed, and the least exertion would upset me and render me terribly weak and nervous. I took Dr. Greene's Nervura blood and nerve remedy and it completely cured me—made me well and strong again.

"It seems as though my cure was almost a miracle, for now I am cured. My neighbors, well-knowing my condition, are astonished at my recovery, and I cannot half highly enough express my gratitude for this wonderful medicine, Dr. Greene's Nervura blood and nerve remedy. I shall be glad to answer inquiries at any time.

"I also have used Dr. Greene's Nervura blood and nerve remedy," said Mr. Annable, "and have derived great benefit from its use; I know it is the best of all medicines. I have recommended it to many of my friends, and shall continue to do so upon every chance."

The enthusiasm of Mr. and Mrs. Annable in regard to Dr. Greene's Nervura blood and nerve remedy is not to be wondered at. It is indeed a wonderful medicine, wonderful because it cures almost everybody who uses it. It makes the sick well everywhere. It gives health and strength to the weak, tired and nervous sufferer. It gives good digestion to the dyspeptic, sweet sleep to the sleepless, and makes life again a joy and pleasure to those whom weak nerves and tired brains have rendered depressed in spirits, melancholy, discouraged and well-nigh hopeless. Use it and it will make you well. Doctors recommend it because it is the discovery and prescription of the well-known physician, Dr. Greene of 35 West 14th Street, New York City, who is without doubt the most successful specialist in curing nervous and chronic diseases. The doctor can be consulted in all cases without charge, personally or by letter.

Children Cry for Pitcher's Castoria.

CASHIER STONE UNDER ARREST

He Robbed the Olyphant Trust Company.

Scranton, Jan. 29.—Following the closing of the Olyphant Trust Company by State Superintendent of Banking Krumbhaar, is the too common story of a dishonest bank official, whose peculations were what brought the embarrassment of the institution by which he was employed.

Cashier Myron J. Stone, of the Olyphant Trust Campany, is a self-confessed forger and embezzler, and occupies a cell in the county prison in default of $5,000 bail, in which he was held to answer for his crimes. Stone's defalcations were first brought to light on Saturday last, when J. A. Shaffer, of Superintendent Krumbhaar's staff, was examining the books of the company. He found Stone's account credited with the amount as "stock subscribed," which the entry stated was paid with discounted paper. This paper Mr. Shaffer requested to see, and the Cashier showed some hesitation about producing it. Upon receiving the paper a very brief examination enabled Mr. Shaffer to detect that it was forged, and that the writing was in Stone's hand.

When questioned in regard to the similarity of handwriting Stone asked that the paper be given to him that he might examine it, and when it was handed to him, he hurriedly tore it up. Mr. Shafler recovered the pieces and pasted them together and lodged information against Stone, and he was arrested. As far as can be learned at the present time, Stone has appropriated some $23,000 of the company's funds. This he sought to replace by forged notes, which he placed among the bank's securities.

News From the Orient.

London, January 29.—The Times will publish to-morrow the following from its Shanghai correspondent: "The Chinese military and naval commanders telegraph via Chee Foo that the Japanese fleet advanced from Wei Hai Wei in two divisions of nineteen ships early in the morning of the 26th. Their search lights betrayed their presence. The guns of the Chinese fleet and shore batteries opened fire when the First division was within 1,000 yards of the Chinese fleet. The fastest Chinese warships and torpedo boats dashed against the enemy and drove them off after heavy firing. The First Japanese division sailed to the northwest and the Second division to the south. The Chinese claim that they damaged several ships.

The Japanese made a simultaneous land attack from Ninghal. This was a surprise but the Chinese repelled them. The Chinese lost twenty-seven sailors. On the Japanese side more than 300 were killed or wounded. It is stated that several foreigners are assisting the Chinese.

Served Him Right.

Bethlehem, Pa., January 29.—Valentine L. Hoyer, a wealthy confectioner, who on the 3d inst., was to have been married to Miss Mary A. Fogel, and who an hour before the wedding left for parts unknown, leaving only a note saying that he was a married man, returned to town to-day and was promptly arrested, and in default of bail, sent to jail. Miss Fogel claims $5,000 damages. Hoyer returned here from Northampton, Mass., with his wife and child and never suspected arrest. Miss Fogle is 18 years old, and is the daughter of a well-to-do South Side butcher.

Now on a Strike.

New Castle, Pa., January 29.—One hundred and fifty miners employed in the Hoytdale mine went out on a strike today. They object to reduction in conformity with the Pittsburg scale.

The China-Japan War

It is thought may raise the price of tea and other articles, but we are still furnishing to our customers at the old rates. We take no account of the scrap between the Japs and Chinese, we know some merchants are trying more money to squeeze by advancing the prices of spices and teas, but the old reliable

EUREKA

keeps right along at the same old gait with prices as usual, with everything in the grocery line the best and cheapest in the market Call and see us—latch string always out—at Eureka Grocery, High Street, next door to post office.

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE,
Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

UNITED HOSPITAL AND DISPENSARY,

The greatest stock of Rubbers in the county of the very best make and at correspondingly low prices.

One lot men's good, heavy winter shirts worth $1, now 49c.

The best unbleached muslin 4, 4½ and 5c.

The very best bleached Muslin 6½ and 7c.

Tickings from 7c up.

Ladies' Corsets from 18c up.

We have no space to detail our entire stock but the above will give an idea of what we propose to do for the next 30 days. You will remember that we have sold goods cheaper the past season than has ever been known before. Now we have made the above reduction even from that basis. We must move our winter stock, as we propose to have a great line of Spring goods in due season.

LYON&CO

BELLEFONTE, PA.

Multiplying Judges.

The Judiciary committee of the House at Harrisburg has reported favorably a bill creating an additional Law Judge for Delaware county, and it is only one of many such demands made upon the Legislature.

Our Judges have been more than doubled since the war, while litigation has steadily diminished, and it is hardly conceivable how an additional Law Judge could be needed in any of the present districts of the State.

There is no more need for an additional Law Judge in Delaware county than there is for a fifth wheel to a wagon. Judge Clayton has ample time to perform his Judicial duties and have nearly half the months of the year for recreation. There could be no demand for an additional Judge in that county unless it is intended that President Judge Clayton shall wear Judicial honors and draw the salary while an additional Judge shall perform the Judicial duties of the court.

There are doubtless a number of gentlemen in Delaware county who would be glad to be an additional Law Judge, but of the half dozen suggested it is fair to assume that all of them would be opposed to the creation of the new office if he was entirely certain that one of the other would be appointed.

The creation of new Judges is one of the many profligate schemes pressed upon the present Legislature, and it would be eminently wise for both branches to halt this tendency to extravagance at the outset. If it shall not be done, long before the close of the session the Legislature will be in public contempt before the people, and it will retire with many stains upon its garments.

HAVE YOU READ

THE PHILADELPHIA TIMES

THIS MORNING?

THE TIMES is the most extensively circulated and widely read newspaper published in Pennsylvania. Its discussion of public men and public measures is in the interest of public integrity, honest government and prosperous industry, and it knows no party or personal allegiance in treating public issues. In the broadest and best sense a family and general newspaper.

THE TIMES aims to have the largest circulation by deserving it, and claims that it is unsurpassed in all the essentials of a great metropolitan newspaper. Specimen copies of any edition will be sent free to any one sending their address.

TERMS—DAILY $3.00 per annum; $1.00 for four months; 40 cents per month; delivered by carriers for 6 cents per week. SUNDAY EDITION, twenty-four large handsome pages—168 columns, elegantly illustrated, $2.00 per annum; 5 cents per copy. Daily and Sunday, $5.00 per annum; 50 cents per month.

WEEKLY EDITION, 50 cents a year.

When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

WANTS NO INTERFERENCE.

Can Settle Her Own Boundary Dispute.

City of Mexico, Jan. 28.—The prospect of the slightest intervention on the part of the United States has elicited very bitter remarks from many public men here and has caused considerable excitement among the people. The war fever runs so high, that any power trying to avert it must reckon with the hostility of public opinion.

In the streets and places of popular resort there is but one sentiment and that is in favor of Mexico's settling her differences with Guatemala, once and for all, without toleration of outside influences.

The newspapers want war. They denounce Guatemala as impudent and truculent, and content that she must be humbled before there can be any certainty of peace for her neighbors. The report that Guatemala, Nicaragua and Honduras have formed a triple alliance for offensive and defensive purposes is discussed with many ironical comments on the impotence of these small states. If Mexico takes the field with her army, the newspapers say, she might as well fight all three as any one of them, as it would be no harder to beat them.

Another cabinet council was held this afternoon, presumably to consider Guatemala's reply to Mexico's final demands. The nature of this reply has not been revealed, but the general understanding is that Guatemala is merely fencing for time. The only positive clue to the government's progress is found in the government's small arms factory, where work is pressed forward with unflagging energy every hour of the day and night. The ranks of the regiments are filling rapidly and apparently everything is in readiness for a sudden mobilization.

WAR MAY BE AVERTED.

At 10 o'clock this evening it became known that the Guatemalan Minister had been instructed to make concessions. Neither he nor any member of the cabinet would comment on this report. Late to-night the opinion gains ground that war will be averted. However, all the concessions must come from Guatemala.

Will Please The Grangers.

Harrisburg, Jan. 28.—Farmer Moore, of Bradford, introduced a bill in the House to-night for the establishment of a department of agriculture, with a secretary of agriculture at an annual salary $3.500. It shall be his duty to encourage and promote agriculture, horticulture, forestry and kindred industries and publish statistic and other information.

The bill authorizes the appointment of a deputy secretary of the department at an annual salary of $3,000 who shall have the direction of farmers' institutes. The Governor is also authorized to appoint a zoological commissioner, commissioner of forestry, and dairy and food commissioner at a salary of $2,500 a year. The secretary of the department of agriculture is also to have a chief clerk at $1.500 a year, a stenographer at $800, and a messenger at $600, all to be appointed by the Governor. The zoological, forestry and dairy and food commissioners shall each be entitled to a clerk at $1,500 a year, all appointed by the Governor.

What Hard Water Does.

The hard water necessarily in common use for drinking purposes in many places tends to cause the deposite of calcareous matter in the Kidneys and Bladder, producing the agonizing and dangerous diseases known aa Gravel and Stone. Formerly the only relief from these affections was by painful surgical operations, and even they were of questionable value. Now the work of removal of these foreign substances from the delicate organs they clog irritate and torture, is safely, speedily and painlessly done by Dr. David Kennedy's Favorite Remedy. No other medicine can be relied upon so implicitly. In every case of Kidney Disease it should be resorted to at once.

WEATHER PREDICTIONS.

Foster Gives More Facts and Figures in Support of His Theories.

My last bulletin gave forecasts of the storm wave to cross the continent from 25th to 29th, and the next will reach the Pacific coast about 30th, cross the western mountain country by close of 31st, the great central valleys from Feb. 1 to 3, and the eastern states about the 4th.

Temperatures will average low during this period following the storm wave, and precipitation will be above the average of the month.

The second February disturbance will reach the Pacific coast about the 5th, cross the western mountain country by close of 6th, the great central valleys from 7th to 9th and eastern states about the 10th. This disturbance will increase in force as it moves eastward and general precipitation will not amount to much.

The principal feature of this disturbance will be the cold wave following it, which will probably amount to a blizzard in the northeastern states. Warm waves will cross the western mountain country about Jan. 30 and Feb. 5, the great central valleys Feb. 1 and 7, and the eastern states 3d and 9th. Cool waves will cross the western mountain country about Feb. 2 and 8, the great central valleys 4th and 10th and the eastern states 6th and 12th.

FEBRUARY TEMPERATURE AND RAIN.

On the Atlantic and Pacific coasts, upper and lower lakes and in the Ohio valley the temperature of February will average below and the rainfall about normal. In Texas, Mississippi and Missouri valleys the temperature will average above and the rainfall about or below normal.

My forecasts of temperature and rainfall for December, similar to the above, based on discoveries made in 1892, and partially worked out since, proved 90 per cent. correct. I cannot expect to keep up that average, however, till the calculations are completed.

The principal force of storm features of February will probably be: First half of the month warmer than last half, warmest part of the month just preceding the storm wave to cross continent from 6th to 11th, coldest cold waves following this storm, and the one to cross from 23d to to 27th. Last part of month will be best ice weather in the northern states, except a day or two at beginning of the month. Will give details of the spring drouth in next bulletin.

2,500 heavy winter flannel shirts, worth $1.25, our price, 50 cents.

Almost Blind

Inflamed Eyes and Running Sores

The Success of Hood's Causes Great Rejoicing—A Perfect Cure.

Miss Cora B. Ebert
Barnesville, Pa.

"C. I. Hood & Co., Lowell, Mass.:

"I feel it a duty to state what Hood's Sarsaparilla has done for me. I was almost blind, being compelled to stay in a darkened room on account of inflammation of the eyes. I also suffered with running sores on my body. I was in terrible condition. My mother tried every thing she knew about and I was attended by two doctors but without helping me. Finally Hood's Sarsaparilla was recommended and I had not taken two bottles before I began to get better. The inflammation left my eyes and the sores healed, and the result was that

I Became Stronger,

and was restored to perfect health. At that time I was only twelve years old; now I am nineteen and I have not since been troubled

Hood's Sarsaparilla Cures

with my eyes or noticed any sign of a return of the sores on my body. I can recommend Hood's Sarsaparilla as an excellent blood purifying medicine." MISS CORA EBERT, Barnesville, Pa.

Hood's Pills act easily, yet promptly and efficiently, on the liver and bowels. 25c.

AMERICAN BOOK COMPANY.

Their Prices are Uniform in All Districts of the State.

The American Book Company has published a full and exhaustive reply to recent newspaper attacks attempting to show that they had charged different prices for their books in different parts of Pennsylvania. They deny the charge and challenge any school board which deals with them to cite an instance which shows any such discrimination. They explain that the obvious reason why some districts have paid out more money for school books than others under the Free Text-Book Law was because some districts bought a partial supply, utilizing the books owned by the pupils, while others changed the books in use and bought a complete supply of new books.

They prove by their printed contracts and prices that the same offers were made and accepted in all parts of the State, and by all districts which purchased books of them; that their prices have been not only uniform but as low or lower than those of any other publishers.

Taking up the specific instances cited in the newspaper attacks, they show that where different prices actually prevail in different places, the books are not their publications, or, that prices were misquoted; and in some instances, the comparison was unfair in that the prices named were not for the same text books, but that all cases where the same books were sold by the American Book Company, they were sold at the same identical prices.

The Company also call attention to the legislative investigation of 1890 as to the existence of a so-called School Book "Trust," and that the result of this investigation, as expressed in the report, adopted by the Pennsylyania Legislature, demonstrated that the American Book Company was not and is not a "Trust," but a legally constituted business concern whose definite plans and purposes are to furnish the best school books at lower prices than had hitherto prevailed. It appears that they have accomplished this purpose and that their prices are materially lower than were formerly customary, and are as low or lower than those of any other of their competitors.

The Universal Medicine Company.

The following remedies for the diseases indicated are all of well known Standard and have been in use, by the leading specialists of the world for many years. They are all of tried value and their use will give great satisfaction. Their action is gentle, yet forcefull, producing the best results. You have thus the advantage of the remedies which are used by the most eminent practioners, at a very small cost.

These remedies have given universal satisfaction.

Olyphant Bank Closed.

Scranton, Jan. 28.—The Olyphant Trust Company Savings Bank at Olyphant, this county, was closed today by State Superintendent of Banking Krumbharr. Mr. Krumbharr's reason is that he is not satisfied with some of the investments made by the bank, and he has closed the doors pending an investigation. The Superintendent is also of the opinion that there is an irregularity in the title of the bank. The business being done under the name of the "Bank of Olyphant," while the institution was incorporated as "the Olyphant Trust Company." The depositors are mainly small business concerns in the towns and laborers.

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

—Tuesday night was a good one for sleighing parties, there being some four or five going out to the country from Bellefonte. One, a four-horse load went up Buffalo Run valley and another composed of the Cowdricks, Ottos, Garmans and others going out to Harrison Kline's. There is no doubt but that every person had a pleasant time.

ST. JACOBS OIL is the Perfect CURE for

NEURALGIA

WITHOUT RELAPSE, COLLAPSE, MISHAPS or PERHAPS.

The Clouds Still Hover Over Us.

Washington, January 29.—When the senate finance committee assembled this afternoon Mr. Voorhees submitted his bill to the committee. Separate votes were taken and it was soon apparent that nothing could be done, and an adjournment was taken with nothing accomplished.

A prominent member of the committee said after the meeting that the result showed that the senate committee could agree on no proposition looking to the relief of the treasury, and that all it could now do was to wait the action of the house and consider such a bill as it might see fit to pass.

The republicans, it appears, went as far as they could in agreeing to report the first two sections of Mr. Voorhees's bill although all of them would have liked some thing more in line with republican policy. This, however, the democrats refused to permit. The committee adjourned without fixing any time for a special meeting. The situation, which appeared somewhat cleared during the early hours of the day, is more beclouded than ever.

Valued Endorsement.

Schaghticoke, N. Y.—It is ignorance rather than anything else that makes life miserable, but ignorance of the value of Dr. David Kennedy's Favorite Remedy does not exist in Schaghticoke to-day, as a blood medicine and nerve tonic it stands supreme. One of the principal reasons for its popularity comes from the great benefit our fellow townsman, Andrew Sipperley derived from its use. Mr. Sipperley has suffered for years past, with a chronic kidney trouble, frequent bilious attacks, and, at intervals with violent neuralgia in the head and face. Up to last fall he rarely knew a well day. At that time his wife who had learned of the good Dr. David Kennedy's Favorite Remedy had accomplished, determined to have him use it. In writing about his sickness, Mr. Sipperley said:

"For several years I was subject to attacks of kidney trouble and gravel, which was attended with most excruciating pain, but since I began the use of Dr. David Kennedy's Favorite Remedy Ihave had no serious trouble, and my general health is greatly improved. I know of a great many people about here who have used Favorite Remedy, and in every instance benefit has followed. One of the officers of the Albany, N. Y. Hospital recently said, in speaking of Favorite Remedy: "I know of its great medical value, and to my knowledge it cures the diseases for which it is prepared.

The great value of Dr. David Kennedy's Favorite Remedy lies in the fact that it disolves the uric acid in the blood. Such ailments as rheumatism, neuralgia, nervousness, dyspepsia, kidney, liver and urinary troubles, and the sickness peculiar to women all come from this one cause. Favorite Remedy disolves this acid and expels it from the system, thus curing the disease. In cases of scrofula, diabetes and Bright's disease, it has cured where other treatments have failed.

Thieves Fall Out

Perry, Okla., Jan. 19.—A priest who returned to-day from Sacred Heart Mission tells of a battle near there between two gangs of outlaws over the distribution of some spoils which one gang had stolen. A fight with knives, pistols and Winchesters lasted for several hours, at least one man being killed, while several others were badly wounded.

The priest attended Dick Overbrand, one of the outlaws, in his dying moments, and says that one other was fatally wounded and three or four were covered with blood when he left the scene.

A False Diagnosis.

La Grippe is confounded by many persons with a severe attack of catarrh, which in some respects resembles the former. These individuals suffer severely with pain about the forehead, eyes and ears, with soreness in throat and stoppage of the nasal possages, and in fact, are incapacitated for work of any kind for days at a time. These are catarrhal sufferers. Ely's Cream Balm has been used with the best results in such cases. The remedy will give instant relief.

The Golden Star

Gold Mining Company

OF MONTANA.

Capital $300,000 divided into 300,000 shares of $1 par value each.

Non-assessable forever.

This company owns two gold mines located in a county which produced $40,000,000 in gold in six years. Has 45 acres of virgin land. Has 500 feet of underground work in shape of shafts and tunnels. Has ore in sight worth $100 per ton. Has assays from $25 to $1,500 per ton. Has shipped ore netting $36 per ton. Has such a small capitalization, only 300,000 shares and not 2,000,000 shares as other companies.

The company intends to sink a shaft through this rich $100 ore vein to a depth of several hundred feet, in order to be able to produce argely for the benefit of the stockholders which will get this profit in large monthly dividends. Hence the company offers a small amount of its stock at the extremely low price of 40 cents a share.

These shares are the investment on the financial market to-day and are better than Government Bonds as they will pay bigger interest.

Write at once for reports and other literature. Address,

STATE COLLEGE BILL.

A Measure to Place that Institution Under Absolute State Control.

Harrisburg, Jan. 23—The trustees of the Pennsylvania State college, at their tenth annual meeting, this morning, unanimously agreed to recommend the introduction of a bill in the present legislature, which will place the institution under the absolute control of the commonwealth. The present trustees are to have their terms end with the 1st of July next and a new board is to be created, to be composed of the governor, auditor genera secretary of internal affairs and superintendent of public instruction as ex-officio members, and twenty additional trustees, fifteen of whom are to be appointed by the governor and five chosen by the alumni of the college. The terms of the appointive trustees are to be five years each, except that of those first appointed by the governor. Five are to serve for five years, five for four and five for three oears. Annually thereafter five will be appointed to serve for five years.

The object of this change is to bring the college into closer relations with the commonwealth and avoid the present cumbersome mode of electing the trustees by a convention of delegates by the various agricultural and mechanical associations.

At the meeting of the board of trustees, as at present constituted, Colonel Francis Jordon, of Harrisburg, was re-elected president of the board ; Dr. George Atherton, president of the college, was re elected secretary and John Hamilton, of Centre county, treasurer.

The treasurer's report showed total receipts during the past year of $204.987, and expenditures of $200,819, leaving a balance in the treasury of $4,118. The report of the president of the college, Dr. George W. Atherton, to the board of trustees shows a remarkable increase in the efficiency of the college in the past eleven years. The teaching force has been increased from seventeen to forty, the number of students from ninety-two to 317 and the number of counties represented from twenty-two to fifty. Students have also been present each year from other states, as well as some from foreign countries. The tuition of Pennsylvania students is free.

Two Banks Close Their Doors.

Binghamton, N. Y., Jan. 24.—The Chenango Valley Savings bank and the National Broome County bank closed their doors to-day. A run was started on the Binghampton Savings bank and the Binghamton Trust company and continued throughout the day. At both banks the officials say they have sufficient funds to pay every depositor in full and more currency on the way. Officers of the Chenango Valley bank state that there are sufficient securities in the hands of the bank examiner to pay every depositor in full and leave a good surplus. The only trouble appears to be that the books are badly mixed up and need a thorough straightening. The close of the Broome County bonk was a voluntary act on the part of the officers, as they feared a run on the bank, which was unprepared to meet it.

Debs and Associates Released.

Chicago, Jan. 24.—Debs and the other imprisoned American Railway union officers gave bail in the sum of $2,000 to-day. They are under $25,000 bail besides, but not on the omnibus indictment. Judge Grosscup said he would fix the bail so the sum total would not be increased, taking off of the old bond as much as he makes the new one. This will make the whole amount of bail each man is under $27,000. President Debs said he had been in constant communication with the leaders of the Brooklyn strike. He had advised them from the beginning not to strike, not because he thought there was no chance for any strike to win these days. He will go to Terre Haute to-morrow to attend to a mass of business which has accumulated in his absence.

Heavy Snow in California.

Sacramento, Cal., Jan 24.—The snow storm, which has prevailed in the mountainous regions for the last eight days, has stopped, and the railroads are being cleared of the great masses of snow which are continually breaking off the high banks that line the tracks for miles. Drifts are constantly forming in the narrow cuts through the hills, and the rotary plows have to be kept in constant operation. At Summit the snow is twenty feet deep.

For Another Insane Hospital.

The overcrowded condition of the insane hospitals had led to an agitation to erect an additional institution of the character for counties in the central part of Pennsylvania. Clinton county is included in the district. A bill appropriating $300.000 to erect such a building and for the purchase of a farm was introduced in the house yesterday by Reprentative Eaton, of Potter county. The district as outlined in the bill embraces the counties of Potter, Tioga, Clinton, Lycoming, Clearfield, Jefferson, Centre, Huntingdon, Blair Cambria, Bedford, Somerset and Indiana.

Getting His Sight Again.

We are glad to learn that Wash McWilliams of Ferguson township, of whose misfortune to his eyes, from a spall, we made mention a few weeks ago, is receiving a glimmer of sight to his remaining eye which was blinded for several weeks. He is still in Philadelphia under treatment.

Back to His Sawmill.

After his successor had been inaugurated as Governor of Oregon last week, ex-Governor Pennoyer was asked as to his future plans. He said in reply: "It has always been my purpose, as publicly expressed more than two years ago, when I left the Governor's office to step up to the sawmill and not down to the Senate." It is well known that the ex-Governor is the owner of a sawmill and that he personally attended to its operation before he became Chief Executive of Oregon eight years ago. His decision to return to his old business is the one gleam of sense the public has seen in an otherwise cranky career.

The ex-Governor of Oregon furnishes a good example for the Honorable Grover Cleveland to follow two years hence. He cannot go back to running a sawmill, it is true, because that was not his occupation before he entered politics, and he has never given proof of enough executive qualities to manage a mill with its pond, logs, raceway and saw adjuncts. But there is no political future before him, either in a State or national capacity. The old glamour about him is dissipated. He has given such a conspicuous exhibition of incompetency and pigheadedness that even the Mugwumps who once beslobbered him with praises have no further confidence in him. Like the little girl's doll, they have discovered that he "is all sawdust." He will hardly serve even as a decoy duck for a law firm anxious to advertise itself.

There is one thing he can do, however. He can follow Pennoyer's example and go back to the position he filled before a grotesque fate picked him up and sent him spinning through one of the most curious political circles that it was ever the lot of man to follow. He can become Sheriff again. He filled the office once and his record has never been impeached, not even the skill with which he cut the ropes that sent two murderers into eternity. There has been some advance, it is true, in administering the office of Sheriff in recent years. They no longer have murderers in New York State. They electrocute them. But Mr. Cleveland would soon catch on to this innovation. Let him get back to his "sawmill," which in his case is the Sheriff's office.

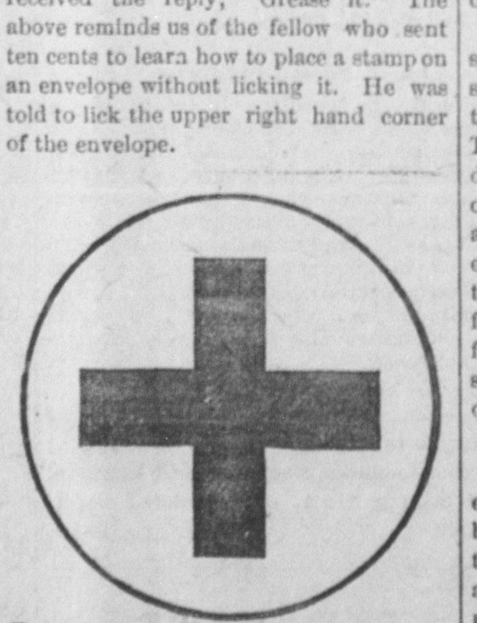
Local Institute for Teachers.

District No. 5 will hold a local institute at Port Matilda, Feb. 9, 1895. The following program has been arranged.

"Patrons and their duties," J. H. Harpster and Ida R. Williams. "The benefits of teaching to the teacher," W. E. Karns and N. F. Krebs. "History and how it should be taught," G. D. Morrison and Metta Lucas. "Features and anvantages of a district High School," W. H. Williams and E. L. Williams. "Outside influences upon the success of a teacher and a teacher's relation to them," Maggie Williams and D. W. Showalter. "How I would teach Geography," E. S. Spotts and J. H Crain. "The method I would use in teaching beginners to read," Edytha Zimmerman and Ella Fleck.

All teachers are requested to take the song books used at the county institute. Teachers of the 5th district are requested to be present and take part. All will be entertained free. Three sessions will be held : one on Friday evening and two on Saturday.

—A farmer in a neighboring county, could not afford to pay for a newspaper. Last week he received a circular letter offering for $10 to send by mail a recipe for making a dollar slick during every hour of the day. He sent the money and received the reply, "Grease it." The above reminds us of the fellow who sent ten cents to learn how to place a stamp on an envelope without licking it. He was told to lick the upper right hand corner of the envelope.



Emergency Hospital

Doctors and nurses realize the necessity of counteracting the effects of the "shock" which accompanies all accident and surgical cases, and which more often proves fatal than the original cause.

Animation is temporarily suspended. Something must be done to start "the wheels" going again, as it were. The stomach is in no condition to digest a sufficient amount of food to nourish the other organs of the body, so they resort to

Bovinine

the original raw food, because the least amount of it contains the most life, strength and blood-producing qualities of anything known to medical science. It will, unaided, sustain strength for weeks, and can be retained by the

Weakest Stomach.

Bovinine is not a medicine, but a builder of flesh and bone, and a maker of blood. For all cases of sickness, chronic invalids, infants or the aged, it is indispensable. 25,000 physicians endorse it. Sold by all druggists. The Bovinine Co., New York.

To Preserve our Forests.

The Forest Commission authorized by the last Legislature and appointed by Governor Pattison has fully justified its creation. It is a highly capable commission and has proceeded with great industry in the performance of its prescribed task. Its report is about ready, but awaits an appropriation for its printing. The commission has not confined itself to gathering facts in regard to the forestry of Pennsylvania. It finds that these forests are being rapidly destroyed, wasted wantonly by forest fires and destroyed by cutting where their existence is necessary to the stability of the water supply of the State. The commission has prepared a series of bills dealing with the forestry question, the first and most urgent of which was introduced in the House by Mr, Lytle early in the session and has passed its first reading.

This bill addresses itself to the prevention and extinguishment of forest fires and the punishment of those who cause them. Its provisions appear to be admirably designed to meet this evil, in the presence of which the State has been helpless and supine. The provisions are many and we do not undertake to recite them, but their chief feature relates to the appointment of special fire wardens in remote and thinly populated forest districts, and the appointment in other places of the supervisors of roads as district fire wardens. It is the duty of the fire wardens to go at once to any forest fire in their district and take all necessary measures for its control and extinguishment, to inquire into the cause of every forest fire and arrest any one violating any of the forest laws of the State. Provisions are made for placarding the forests with warnings and for punishing those who build fires in the forests without permission. Every precaution that experience suggests as a means of preventing forest fires or reducing their ravages to the minimum find place in the provisions of this well-considered measure.

The Legislature will doubtless pass this bill, as it aims to protect the material and visible wealth of the State from a grave and increasing danger. There are other measures contemplated by the commission which ought to pass on their merits, but for which this Legislature may not be ripe. One of these provides for the establishment of three separate forest reservations in the State, each not less than 40,000 acres in continuous area. This is for the protection of the head waters of our chief rivers. Another bill provides ways and means for educating the people on forestry. There is much need of this. The waste of timber, the failure to reforest our many barren hill sides, shadeless highways in country and town are all due to ignorance of trees, of their needs, possibilities and advantages. These are welcome signs of an awakening to the beauty, utility and value in trees, whether by the roadside or grown in forests or on the mountain side. The Forestry Commission is the outgrowth of this awakening. Its report should have a wide circulation and the appropriation for its printing should be a liberal one and made without delay.

To Prevent Cold Feet.

Do you have cold feet ? If so, don't increase the thickness of your stockings, but the size of your shoes. The most important rule to follow to obtain warm feet is never to be tightly shod. Boots or shoes that fit closely prevent the free circulation of the blood by pressure ; but when, on the contrary, they do not embrace the foot too firmly, the space left between the shoe and the stockings has a good supply of warm air.

The second rule is never to sit in damp shoes. It is often supposed that unless shoes are positively wet it is unnecessary to change them while the feet are at rest. This is a great fallacy, for when the least dampness is present in the sole in its evaporation it absorbs the heat from the foot, and thus perspiration is dangerously checked. This can easily be proved by trying the experiment of neglecting the rule. The feet will be found cold and damp after a few minutes, although on taking off the shoe and examining it, it will appear to be quite dry.

Notice.

Persons desiring to aid in the increase of edible fish in the waters of the state, can, by applying to the Pennsylvania fish protective association, 1020 Arch street, Philadelphia, obtain placards containing information as to close of seasons of the different varieties of fish, and other information pertaining to the same; also blank applications for procuring trout fry, free, from the Pennsylvania fish commissioners, will be supplied by the association upon application.

Musical Convention Next Week.

A grand musical convention will be held in the Union church, in Walker township, beginning Monday evening, January 28th and to conclude with a grand concert on Saturday night. The convention will be conducted under the direction of Prof. I. D. Gresh, of Milton, and a number of musicians and singers from a distance will be in attendance. It will be for the benefit of the Union church and will be a grand success .

—Mr. James Harris received a telegram to-day announcing the death, at Marion, Ind., of William McLanahan, who was a native of Bellefonte, his death occurring Friday night. Mr. McLanahan was an ex-soldier and had a good record. He was a cousin of Mr. Harris and a brother of Miss McLanahan who died a year or so ago.

College Self-Government.

Steps have been taken at Harvard University toward the formation of a body that will act in the character of an advisory committee to the faculty and aid in the government of the college. The idea has not been fully worked out as yet, but as the matter now stands the plan is to bring the faculty and undergraduates together in a series of conferences for the consideration of subjects relating to college discipline and management. The subjects suggested for consideration are to such matters as the assignment of scholarships, college athletics and the rules adopted for governing the students. The discussions are to be open to all the undergraduates, as well as the members of the family, and free and full expression of opinions are to be encouraged.

The purpose is to bring faculty and students into sympathetic relations by permitting the latter a voice in the discussion if not in the final decision of matters, and so convince the undergraduates that the faculty desire to do exact justice to all. A beginning will probably be made in the way suggested, but it is probable that in time a selected body of students and members of the faculty will also be organized for the consideration of more specific and delicate subjects relating to college affairs. This may be in the nature of a senate, such as existed at Amherst College, and which will act as an advisory council to the faculty, or it may be given full power to determine questions relating to the conduct of students, the management of athletics and the method of college discipline. But whatever direction it takes, the result of the experiment will be watched with interest by all who have studied the subject of college government.

The proper management and government of college students have come to be a serious question with those having charge of the higher institutions of learning. The old system of treating college students as if they are still tied to their mother's apron-string has long since been discarded and the other extreme of leaving them largely to their own control has been adopted. In fact, in some of the larger institutions there is no government force but public opinion. This was well enough for a time, or so long as the number of students had not grown beyond a compact, easily-handled body. But when some universities have become respectable villages in themselves and most members of the faculty are an unknown quantity to the larger number of students it is plain that a new system must be adopted or college government must degenerate into a rabble or become an aristocracy of president, trustees and faculty.

Law and Liberty at Stake.

The Brooklyn strike has reached the point which all strikers of this character reach, in which the original cause of dispute is lost in the larger need of keeping the peace.

A city becomes a mere stretch of savage men and women when its streets are no longer open to travel, when any man cannot work at will in them and when property ceases to be protected. These are primary rights. Unless they are enforced there is nothing else worth having. A week in which the law fails to protect these rights, as the law has for a week failed to protect them in Brooklyn, is a return to barbarism and will end by making of the fenced city a heap and of its fairest places desolation.

There is no question here of rights or wrongs or men enough to man the trolley cars or new men or old. The law makes the streets free. The law must be enforced, if it takes every life which obstructs its full operation.

With abundant force at command, it is a public scandal that it has not been used without stint or hesitation in Brooklyn to enforce the law. It is nonsense to imagine that 8100 of the National Guard and 3000 policemen cannot suppress any mob. The failure to do it puts a premium on disorder elsewhere, and will cost somewhere a cruel loss of life. Precisely where responsibility rests does not appear, but some one has been contemptibly weak in dealing with the Brooklyn mob. It is now nothing else. Every man in it is a criminal breaking the law, and the quicker each discovers the peril of lawlessness the better.

One thing is certain, neither prosperity nor civilization, niether liberty nor law, neither the wages of labor nor the returns of capital can continue if twice a year a mob is to hold the streets of our cities, as mobs in the past twelve months have held the streets of Chicago and Brooklyn.

Here's Another Good Chance.

Charles Chipman & Sons, manufacturers of hosiery and underwear are desirous of transferring their factory from Germantown, Philadelphia.

From 200 to 300 hands are employed, mostly girls. They say that if abundance of help can be secured outside of Philadelphia they might increase their force to 400 or 500 hands. This is an excellent opportunity for some of our enterprising citizens to distinguish themselves. Chipman and Sons are negotiating with several towns, but the necessary help does not seem to be available in either places.

Her Husband Shot.

The Kitty Rhoades company, which filled a week's engagement here recently, are now at Pittston. Yesterday morning Gilbert Ely, of the company, shot J. W. Ward, Kitty Rhoades' husband, at the post office in that place. Mr. Ward is in a dangerous condition. The cause for the shooting has not been made public.

"WHERE DIRT GATHERS, WASTE RULES."
GREAT SAVING RESULTS FROM THE USE OF
SAPOLIO

The New Franking Privilege.

It is a misnomer to say that this Congress has restored the old franking privilege. This permitted a Congressman to transmit any mail matter under his signature, a privilege grossly abused.

The clause in the Government printing act just passed, which is being widely said to have restored the "old franking privilege," only gives Congressmen the privilege of sending letters free, and only these on official business. The clause of the act which does this is as follows :—

The Vice-President, members and members-elect of and Delegates and Delegates-elect to Congress shall have the privilege of sending through the mails, and under their frank, any mail matter to any Government official or to any person correspondence not exceeding one ounce i weight, upon official or departmental business.

This limits the privilege to letters and to letters of one-rate postage. A heavier letter will need a stamp. When the franking privilege was abolished official stamps were provided for the departments. These proved cumbrous and were abolished, a "penalty" envelope in use in England being substituted. This has been abused, but not as much as the old frank. Congressman have never had this privilege. Next it was provided that Government documents should go free under a Congressman's frank. This has been in operation some sixteen years. Lastly comes the change which makes Congressmen's letters free.

Democratic papers, which are always attacking "extravagance" and supporting a party which perpetrates the worst extravagancies known in our appropriations, will find this extension of the franking privilege hard to defend. Sensible people will remember that a Congressman's letter postage is nearly all caused by his official position, and that it costs a Congressman easily $10 a week if he keeps up with his mail.

To Protect Ruffled Grouse.

Last week the sportsmen of Wilkesbarre and vicinity held a meeting in that city for the purpose of getting up a law to present to the legislature forbidding the sale of ruffled grouse or exporting it from the state. The Record says that 3,100 grouse have been retailed in that city in one season by five dealers alone, and many have been shipped to New York and Philadelphia by the hunters. Pennsylvania is the great grouse state, and if these birds are once exterminated we can never replace them, as they are particularly adapted to this state and climate and cannot be propagated in captivity as other variety of game.

Publishing Marriage Licenses.

The question of publishing marriage licenses in the newspapers was discussed in Berks county court a few days since. An attorney thought they shouldn't because some ministers might lose a fee by the contracting parties going into an adjoining county, and the publication of the license would only afford matter for gossippers to talk about. Judge Bland answered the attorney neatly by remarking: "I think if there were greater publicity given to the proposed marriages there would not be so many family quarrels and trials, such as often take place in court." Judge Bland will render a decision shortly and it is probable he will not abridge the privilege of publishing marriage licenses.

—Mr. and Mrs. Thomas Howley are rejoicing over the arrival in their household of a youthful stranger. It came last week and is a great big "boy."

Manager Garman has booked "The County Fair" for an appearance some time in the latter part of March.

—And the shirt factory may come. Then every man in Bellefonte ought to have at least on shirt one his back.

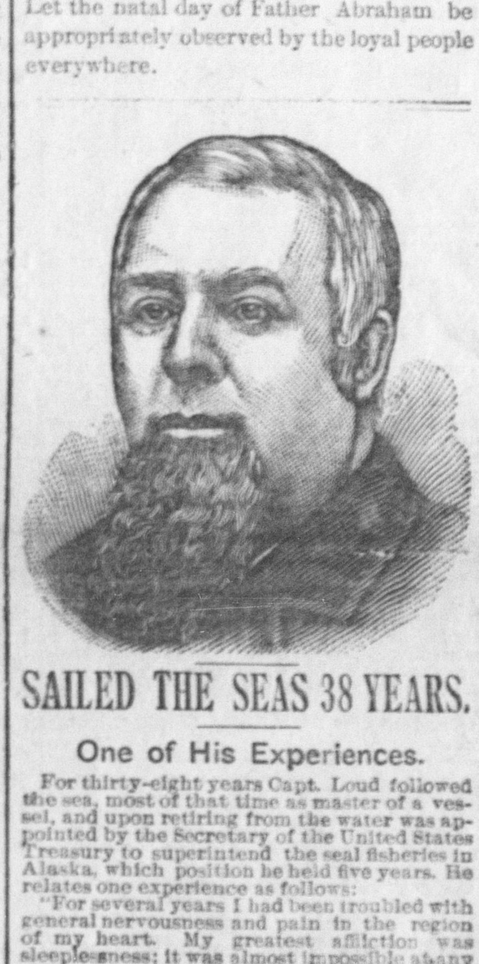
—President Atherton has asked the State Legislature for an appropriation of $350,000 for Penna. State College. There will be some opposition to it.

—Only two marriage licenses have been granted, namely, to Al. Beezer, of Bellefonte, and Sadie Oswalt, of Milesburg; and William Albright and Christie Sampsel, of Benner township.

—Work for Bellefonte. Do all you can for the improvement and advancement of the town. Encourage every movement to bring new industries here and thus make everybody prosperous and happy.

—While driving Joseph Montgomery's spirited mare in the vicinity of Morris' Buffalo Run lime kilns, on Wednesday morning, George Waite, one of the employes of the Bellefonte Fuel & Supply Co's place here met with an accident that lacerated the horse in a terrible way. She shied suddenly and jumped into a barbed wire fence and tore her shoulder so bad that it required twenty-eight stitches to close the wound.

—Great preparations are being made in all the large cities throughout the country to celebrate the coming anniversary of the birth of Lincoln, February 12. No man in history fills the hearts of American people with greater patriotism than Father Abraham. Every loyal American should take great pride in keeping the name of Abraham Lincoln in patriotic remembrance. Let the natal day of Father Abraham be appropriately observed by the loyal people everywhere.



SAILED THE SEAS 38 YEARS.

One of His Experiences.

For thirty-eight years Capt. Loud followed the sea, most of that time as master of a vessel, and upon retiring from the water was appointed by the Secretary of the United States Treasury to superintend the seal fisheries in Alaska, which position he held five years. He relates one experience as follows:

"For several years I had been troubled with general nervousness and pain in the region of my heart. My greatest affliction was sleeplessness; it was almost impossible at any time to obtain rest and sleep. Having seen Dr. Miles' remedies advertised I began using Nervine. After taking a small quantity the benefit received was so great that I was positively alarmed, thinking the remedy contained opiates which would finally be injurious to me; but on being assured by the druggist that it was perfectly harmless, I continued it together with the Heart Cure. Today I can conscientiously say that Dr. Miles' Restorative Nervine and New Heart Cure did more for me than anything I had ever taken. I had been treated by eminent physicians in New York and San Francisco without benefit. I owe my present good health to the judicious use of these most valuable remedies, and heartily recommend them to all afflicted as I was."—Capt. A. P. Loud, Hampden, Me.

Dr. Miles' Restorative Nervine and New Cure are sold by all druggists on a positive guarantee, or by Dr. Miles Medical Co., Elkhart, Ind., on receipt of price. $1 per bottle, or six bottles for $5, express prepaid. They are free from all opiates and dangerous drugs.

SCRIBNER'S MAGAZINE
AN IMPORTANT CLUB OFFER
SCRIBNER'S MAGAZINE
The Paper.

BY special arangement with the publishers we are enabled to offe SCRIBNER'S MAGAZINE for 1895and a full years subscription to

The Bellefonte Republican

For $3.75.

If purchased separately these periodicals would cost $4.50.

IT IS THE PLAN OF SCRIBNER'S to give its readers next year a history of the past 25 years in the United States. (1894-95.) These years have been unparralleled in the history of the world for national development and material progress. The narrative will be written in a graphic and picturesque style by President Andrews, of Brown University, and capable artists will illustrate it.

ROBERT GRANT whose "Reflections of a Married Man" will long be remembered, has written a series of articles on "The Art of Living," in which he sets himself to solve, as far as such problems can be solved, questions which beset every well-to-do family : The Income—The dwelling—Household Expenses—Education of Children—Married and Single Life—The Summer Problem, etc., etc. Beautifully illustrated.

GEORGE MEREDITH, whom more than one good authority has pronounced the greatest of living novelists, has written a strong serial, "The Amazing Marriage" to begin in January.

W. D. HOWELLS, will contribute a novel entitled "The Story of a Play."

IN THE LAND OF DON QUIXOTE will be a series of three sketches illustrated by Daniel Vierge's wonderful drawings.

SINGLE ARTICLES in great variety have been arranged for and the illustrations will be eleborate.

Scribner's For 1895 Will Be Better Than Ever.

If you desire only SCRIBNER'S MAGAZINE remit $3.00 to the Publishers:

KILLED HER TWO CHILDREN.

A Crazy Mother Smothered Her Little Boy and Girl.

Boston, Jan. 24.—Mrs. Margaret McBournie to-day called at the police station and informed the police that she had drowned her two children, a boy, aged 4, and a girl aged 2. The police went to her home and found the two children dead in bed. They, however, bear no trace of having been drowned and it is believed they were smothered by their mother. The woman was detained at the station. She is believed to be crazy from over indulgence in liquor. Her husband, who is employed as porter in a store, was horrified when told what his wife had done. Mrs. McBourne said this afternoon that she murdered the children rather than have her husband take them away from her as he intimated he would. Her husband had reproached her and told her that if she did not leave off drinking he would deprive her of the children.

"This morning I kept thinking of what my husband said to me about taking the children away, and I decided that I would save them by killing them. About 8.20 o'clock I went into the room where Clara and Johnnie were slepping. I took Clara out first, undressed her, took her into another room, where I had a tub of water, and then held her head under the water until she was dead. She did not make much noise and, when I put her away, I went after Johnnie. He was in bed and I told him that I wanted him to go to heaven. He said he did not want to go, but I took him out to the tub and held his head under the water until he was also dead.

"After that I took the two children, washed them carefully, laid them side by side in the bed, closed their eyes and placed coppers on them to keep the lids down and left the house."

Down With Rents.

Prices declined in the last year or two. Only a few of the necessaries of life have been kept up by monopoly. These, too, must come down, and among other things rents must have a drop. The owners of dwelling houses are asking entirely too much of their tenants. There has not been many reductions of rents since the hard times began. At least 30 per cent. should be knocked off the rates now demanded by landlords. It must be done and the property owners may as well come down gracefully. Tenants should refuse to renew their leases unless the rents be made to correspond with wages and labor. The man who is earning only half as much as he did two years ago cannot pay the same for a house to live in that he then did, and he should move out into the open field rather than do so. Down with the rents.

THE PASTILLE CURE TRADE MARK FOR NERVOUS DEBILITY

Prof. HARRIS' SOLUBLE MEDICATED Pastille

Has been put up in a proprietary form since 1878, and has been used for years prior to that time in private practice. It is no untried nostrum, of doubtful reputation, but a genuine specific for a very prevalent disease. Thousands of men, of all ages, have at some time in life brought on nervous debility and exhaustion, with organic weakness, by over brain work, excesses, too frequent indulgence or indiscretion and vicious habits, and it is to these that we offer a remedy that will, by its direct action upon the seat of the disease, stop the drain and restore the patient to vigorous health and strength.

Our method of introducing Prof. Harris' Pastille treatment is one which commends itself to all sensible persons—for the reason that we supply it upon their judgment of its value. We ask of our patrons nothing in the way of expense beyond a postal card and a two cent postage stamp. The postal card to be used in sending us their full address and the postage stamp for the letter returning the statement of their case for which we supply them with a question blank, to be filled out, and an envelope addressed to ourselves for use in returning it when filled.

FREE TRIAL PACKAGE. When we receive the statement on blank we prepare eight days' treatment and forward it by mail and prepay postage thereon—and along with the eight days' treatment we send full directions for using. The treatment in no way interferes with a person's attention to business, and causes no pain or inconvenience in any way.

We are so positive that it will give perfect satisfaction that we leave the matter of sending orders entirely with those using the free trial treatment. Having satisfied those sending for trial packages of our ability to benefit their sexual condition we feel that they are more largely interested than ourselves in continuing the use of the Pastilles. Even then we do not attempt to rob them by demanding high prices. On the contrary, we make the prices as low as possible, and the same to all. They are as follows: $3 for one month; $5 for two months; $7 for three months.

Trade Mark. SHAPE & SIZE OF A GENUINE PASTILLE

These prices secure the delivery of the Pastilles by mail. If desired by express we leave the patient to pay the charges. For over ten years we have operated our business upon this plan with satisfactory results.

We ask all persons needing treatment for any of the secret ills which come to mankind through a violation of nature's laws to send us their address on postal card or by letter and allow us to convince them that PROF. HARRIS' SOLUBLE MEDICATED PASTILLES have merit and are what they need.

All communications confidential and should be addressed to

John Scott.

The retirement of John Scott from the head of the legal department of the Pennsylvania Railroad Company will be noted with keen regret, not only within the official circles with which he has been associated but by the public generally. During the last eighteen years he has been ganeral solicitor of the greatest railroad corporation of the world, and he has voluntarily retired from it because of enfeebled health, leaving a record that will stand as a notable example for all the members of his profession.

Mr. Scott had won distinction in the law as a member of the Huntingdon bar before he became known in public life. When he had reached middle age he stood in the forefront of his profession in the interior of the State. He was active in politics as a young man, and was one of the memorable phalanx of the Democratic State Convention of 1852 that opposed the nomination of Mr. Buchanan for President. He was then an aggressive Democrat. When war come he regarded the interests of the country as paramount to party, and in 1861 was elected to the Legislature as a war Democrat in the strong Republican county of Huntingdon, and he rendered great service to his State and to the cause of the Republic by his patriotic support of the war during his legislative career.

His active participation in the discussion of the issues arising from the war gravitated him into the Republican organization, and in 1869 he was nominated with great unanimity as a Republican candidate for United States Senator, and elected by a large majority in the Legislature. During his career in the Senate he was regarded as one of the few men whose conscientious discharge of public duty could never be halted or swerved by partisan considerations. When a member of his own party in the Senate was assailed for having corruptly won his Senatorial seat, and when party pressure was exhausted to sustain the accused Senator, the issue was decided by the courageous action of Mr. Scott, and the Senator was forced to resign. Always modest and unobtrusive, he was ever equal to every emergency in the Senate, and few men who represented Pennsylvania in that body have left as creditable a record either in ability or fidelity to public trust.

Mr. Scott has rounded out his three score and ten years and the exacting duties of his profession have made him feel that absolute rest is necessary for the preservation of his health. He will go into retirement enjoying the unbounded respect of the legal profession of the State, and go into history as one in both legal and political distinction ever illustrated the fullest attributes of integrity and patriotism.

A Woman With a History.

An exchange says: There is a woman living in the Sinnemahoning valley, at the headquarters of the west branch of the Susquehanna, who was born an Orr, and by marriage she has in turn changed her name to Barnes, Calahan, Rix, Enos, Robison, Elder and now Bailey. Each of her six dead husbands had been a soldier in the late war, and she married the first one in 1863, when she was 17. It is hardly fair to say, either, that these husbands were exactly six for not one of them had all of himself left when he succeeded to the title of a husband to this admirer of the military. Three of the husbands had only one leg apiece; one had only seven fingers, besides being short a leg; another wooed and won the widow with one leg and one arm, and the sixth was minus an eye. This one died three years ago last May. Her present husband is not a veteran of the war, and has all his legs, arms, fingers and eyes. Mrs. Bailey is not yet 49, and is the mother of twelve children, two each by her soldier husbands.

A Barber Item.

A man, says an exchange, who was anxious to know how many strokes of the razor a barber made in sharving him, counted them and was quite surprised to find what a contract it was to remove the hair from his cuticle. The work of lathering the customer's Roman mug wasn't included in the enumeration, the counting not beginning until the razor, freshly strapped, was applied to the face. The barber removed the soap first applied, and by that time the strokes numbered 209. The lathering was done over again and when the soap was removed a second time the score has crept up to 425. The barber gave his customer a careful shave, and when the last stroke had been made the customer had counted 679.

Mrs. Barbara Rankin departed for Harrisburg this morning for a brief visit at the Executive Mansion. She took with her her little granddaughter, Baby Sara Hastings, who has been in Bellefonte since the 12th instant. It will undoubtedly be a happy reunion in the governors' mansion when baby comes home.

THAT NEW INDUSTRY.

Will Bellefonte Get the Shirt Factory, is the Question.

In accordance with the call in the DAILY NEWS Wednesday about thirty or more of the business men of the town met in the court house Wednesday evening to meet the two gentlemen who are here in the interest of starting up a new shirt factory.

The gentlemen, who are both experienced in all the details of the business, explained it fully and freely and the project, as it was presented by them, seemed very favorable and likely to prove a good thing for any town.

The proposition is to raise a stock company, have it chartered, with a capital of not less than $10,000, and $15,000 if possible. All persons taking stock would of course, participate in the profits of the concern. The gentlemen, themselves, would of course take some stock, and would superintend the factory, working on either a salary or commission as the company might elect. After discussing the affair in all it's details, it was favorably considered by Bellefonters and a committee, composed of William Shortlidge, F. W. Crider, John Meese, Edward K. Rhoads and J. C. Meyer, was appointed to meet the gentlemen next morning and go into further details regarding the scheme and also determine what it was best to do.

The committee met at 8 o'clock this morning and decided to go ahead and raise the necessary money. The factory, if it is started, will employ from the start about fifty hands, mostly girls; and, if it proves successful will of course be enlarged in proortion to the trade built up.

Pumping Wind Into the General.

During the recent campaign General Hastings' voice grew so weak and his throat so raw that Dr. Shoemaker was engaged to frequently spray cooling lotions into the general's hot throat and the Harrisburg Telegram tells a good one on him. It was down at Phoenixville General Hastings spoke out of doors in a drizzling mist. Then he hurried in to the hotel, where Dr. Shoemaker began spraying his throat. Down at the foot of the steps stood a self-appointed guard, tall, lank, grizzled, abrupt and profane in speech, with cowhide boots and a broom handle cane.

"Can't gowup," and he glared at the visitor and threw the broom handle across the stairway to bar his ascent.

"I want to see the general."

"Can't gowup."

"Why?"

"Busy."

"What's he doing?"

"He haint doin' nothin,' but there's a feller up there with a bellows an' piece of hose pumpin' wind or water down him and damfino which. Ye can't gowup."

And he didn't.

FATAL ACCIDENT.

It Occurred on the Sunbury and Lewisburg Road Yesterday.

Lewisburg, Pa., January 25.—A fatal accident occurred at Kreamer station, on the Sunbury and Lewistown railroad, thirty seven miles east of here, at 4 o'clock this morning. A sledding party of seventeen persons drove on the track in front of a double header freight train drawn by engines No. 118 and 113, engineers M. Wertz and Potter, Conductor Lutz, and were struck by the train.

The killed are:

I. D. Romig, the driver.
Charles Romig, his son.

The injured are:

Miss Mollie Burns, right leg off below knee; both bones of left arm broken.
Miss Annie Potter, contused ankle.
Ed M. Hummel, cut about head.
Mrs. Ed. Hummel, bruised about body.
A. W. Potter, Esq., both hands cut off.

All the remainder of the party escaped but were badly shaken up. No reason can be assigned for the accident save that the party drove on the track in front of the oncoming train. The horses were uninjured, but the sled was wrecked.

MERCURIAL POISON
Is the result of the usual treatment of blood disorders. The system is filled with Mercury and Potash remedies—more to be dreaded than the disease—and in a short while is in a far worse condition than before. The most common result is
RHEUMATISM
for which S. S. S. is the most reliable cure. A few bottles will afford relief where all else has failed.
I suffered from a severe attack of Mercurial Rheumatism, my arms and legs being swollen to more than twice their natural size, causing the most excruciating pains. I spent hundreds of dollars without relief, but after taking a few bottles of S.S.S. I improved rapidly, and am now a well man, completely cured. I can heartily recommend your wonderful medicine to anyone afflicted with this painful disease.

Bellefonte Republican,

To CORRESPONDENTS.—No communication published unless accompanied by the real name of the writer.
Corespondents should write upon but one side of the paper, and avoid the use of pale or fancy inks.

EDWARD T. TUTEN.

Local Department.

—This is court week and Judge Love is presiding.

—Twenty-three cases of measles are reported at Pleasant Gap. This is about one-eight of the entire population of that village.

—Mr. and Mrs. Martin Reese are rejoicing over the arrival of a young son in their household. It made its advent Saturday night.

—Philipsburg and Tyrone both want to be county seat for a new county. All that Bellefonte wants at present is the new insane asylum.

—The Lewisburg train from Montandon was unable to get through at all this morning, it coming as far as Risings Springs and then going back.

—Mrs. Mary E. wife of Robert Hepburn Sr., died at their residence on Blanchard street on Friday night, at the advanced age of sixty years. The funeral occurred this afternoon.

—A student named Ben, of Allegheny City, was last week suspended from State College for hazing. It is the determination of the College Faculty to break up this disreputable sport at all hazards.

—The Snow Shoe train from Bellefonte to the mountain town Saturday never reached there until ten o'clock at night, owing to the snow drifts on the road. Returning they got into Bellefonte at 2.30 Sunday afternoon.

—Saturday's high wind put the railroads and highways in the worst condition of the winter. It took the Lewisburg train four hours to run from Bellefonte to Lemont Saturday afternoon.

—There are sixteen candidates after the Philipsburg postoffice and the present postmaster has yet more than a year to serve. Wonder what the number will be as the time for a change draws near.

Miss Rose Jackson, of Oberlin, Ohio sister of Mrs. Rev. H. A. Grant, is here visiting Rev. and Mrs. H. A. Grant. Miss Jackson is a fine scholar, having graduated from Oberlin College some years ago. She has been teaching school a number of years—her pupils all being white.

On Friday morning Mrs. Daniel McGinley accompanied her daughter, Mrs. Dr. Coolige, to her home in Scranton, where she has gone for treatment for her eyesight which has become very much affected She expects to be away a couple of months.

—The Reformed church will hold a sociable on Thursday evening at the home of Mr. and Mrs. Thomas Moore, on corner of Spring and Bishop streets. Ice cream and cake, oysters, coffee and sandwiches and numerous delicacies will be served, and it is the purpose to make this occasion surpass any former like one. Everybody is invited to be present. Come one and all and have a pleasant evening.

—A fire alarm is a very good thing, but when it thunders forth as it did Sunday night and brings out a good sized crowd and the entire fire department to watch a burning chimney, its "faithfulness" is not so much appreciated; especially when the thermometor is hugging zero pretty close. The burning chimney was that on a house owned by Mr. E. C. Humes, on Lamb street, and occupied by Mrs. Biddell. No damage was done.

—Mr. and Mrs. G. G. Burnett arrived on Saturday evening and will therefore be on hand to give a grand entertainment at the Lutheran church this evening. Having been here over Sunday they have favorably impressed every one who has had the pleasure of meeting them. The indications are that there will be a full house, and a delightful entertainment for both young and old. From here they go to DuBois, where they were so well pleased with their former entertainment that they were invited back again. Doors open this evening at 7.30, to begin promptly at 8 o'clock.

—It's just like a woman to scold about the little troubles and be brave about big ones. To overestimate their own beauty far less than they underestimate their own goodness. To faint at mice and spank tigers with a broomstick. To value a baby above the world; or a pug above a baby. To keep nine commandments more easily than the tenth. To look at the most undeserving of men through the kindly spectacles of pity. To try independence, succeed in it, but prefer it not. To toil life long for social position, or throw it away in an instant.

Governed by Local Laws Only.

Washington, January 29.—Inquiries have been made of the law division of the postoffice department as to the legality of the system sought to be enforced by country newspapers regarding the collections of back subscriptions, and the taking of papers from the postoffice or letting them remain there, if the subscriptions were unpaid. The assistant attorney general has made a search of the statutes and determined that there is no federal law covering such cases and that newspaper subscriptions are governed by local laws like any other private contract.

ANNUAL M. E. CONFERENCE.

It Will Convene This Year in Tyrone. Important Statistics. Who Will Preside.

Elaborate preparations are already being made by the pastor, Rev. R. H. Gilbert, and the congregation of the First Church, Tyrone, for the annual sessions of the Central Pennsylvania M. E. Conference which will convene in that place on Wednesday, March 13th, and continue one week. This conference grows in importance and strength with each successive year. It embraces almost one—third the territory of the entire state and is comparatively as large in every other way.

In this territory there are 218 appointments, divided into five divisions, as follows: Altoona district, 48 appointments: Danville district, 47 appointments; Harrisburg, 40 appointments; Juniata district 34 appointments; Williamsport district, 94 appointments.

MEMBERSHIP.

According to the reports presented a year ago Altoona district is in the lead in point of membership, it having 12,204 full members. Danville comes next with 10,627 - Harrisburg, 10,505; Juniata, 9,518, and Williamsport, 9,019, a total of 51,873 members; an increase over the preceding year of 474. The increase will be even larger this year.

THE CHURCH PROPERTY.

The church property of the various districts, according to the reports handed in at the last Conference, is thus quoted: Altoona district 130 churches valued at $460,200; Danville district, 117 churches valued at $437,175; Harrisburg district, 88 churches valued at $653,900; Juniata district, 123 churches valued at $270,150; Williamsport district, 103 churches valued at $614,905, a total of 561 churches with a valuation of $2,436,330, an increase in valuation of $54,275. There are also 162 parsonages with a valuation of $395,325.

SUNDAY SCHOOLS.

The Sunday schools in the Conference foot up as follows: Altoona district, 138 schools, 2,179 officers and teachers and 15,963 scholars. Danville district, 116 schools, 1,904 officers and teachers and 14,469 scholars. Harrisburg district, 84 schools, 1,893 officers and teachers and 14,141 scholars; Juniata district, 135 schools, 1,750 officers and teachers and 11,183 scholars. Williamsport district, 120 schools, 1,831 officers and teachers and 13,545 scholars, a grand total of 593 schools. 9,557 officers and teachers and 69,301 scholars; an increase over preceding year of 10 schools, 202 officers and teachers and 1,459 scholars.

COLLECTIONS.

In the district there was raised for pastor's support the sum of $179,798; for presiding elders, $11,804; for Bishops, $2,418; for conference claimants, $7,811; for current expenses of churches and Sunday schools, $72,812; for missions, $41,832; for all other benevolent collections, $30,520, making a grand total of moneys raised and collected for all purposes (except local church erection and payment of debts, for which the sum of $124,782 was expended) of $346,995. This is a decrease from the year previous of about $35,000. The conference has in it a total of 208 effective ministers, 41 supernumeraries and superannuated and 14 probationers. In addition, however, there are in the district about 155 local preachers.

THE PRESIDING BISHOP.

The sessions of the Central Pennsylvania Conference this year, and not only the Central Pennsylvania, but the Philadelphia, Pittsburg and Erie Conferences, will be presided over by Bishop John P. Newman, D. D., L. L. D., of Omaha, Nebraska and this will be the first year he has presided over Conferences in Pennsylvania. This being the case, a brief sketch of the Bishop will not be out of place. He was born in New York City September 1, 1826, thus being aged 68 years. He entered the Oneida conference in 1849 and since has been a member of the Troy, Mississippi, Baltimore, New York and other conferences. In 1858 he was pastor of Bedford Street church, New York City, where his remarkable eloquence won him wide fame. In 1859 he went to Europe, spending a winter of study in Rome and making a tour of Egypt and Palestine. In 1862-3 he was again stationed in New York city from where he was sent to reorganize the Methodist Episcopal church in Louisiana, Texas and Mississippi. In 1869 he was pastor of the Metropolitan church in Washington, D. C., and in 1873, under an appointment of President Grant, he made a tour of the world. When made Bishop he was serving a third term as pastor of the Metropolitan church in Washington. Bishop Newman is the author of several very valuable works. He is a man of very noble and generous impulses, full of sympathy, dignified in manner, a most pleasing speaker and one of the most widely known and prominent ministers in the United States and Europe. He was elected a Bishop in 1888 in the city of his birth. He has few equals as a lecturer, is thoroughly acquainted with the rules of Elocution and is an able, just and thorough presiding officer.

Christian Endeavor Convention.

From present indications it looks as though the convention of the Centre county societies of Christian Endeavor to be held at State College on February 7th and 8th, will be a most helpful as well as interesting one.

The speaker for the first evening is Rev. J. F. Hartman, of Altoona, who is the State Chairman of the "Good Citizenship" committees and whose subject, "Good Citizenship" describes a recent movement which should receive the careful attention of every thoughtful man and woman.

Dr. William Laurie's address on "Methods" and the parliament on "General Committee Work," conducted by Mr. James P. Hughes, are the features of Friday morning. The afternoon session on "Junior C. E. Work" will be interesting, although rather short, so as to enable visitors to see the students of the College at their work in the various laboratories, and take in an exhibition drill in the armory.

The Convention address in the evening is by the President of the State C. E. Union, Rev. J. T. McCrory, D. D., of Pittsburg, who is a very fine speaker. The evening will close with consecration services by Prof. J. M. Willard. A special train will probably be run to Bellefonte after the close of the evening exercises.

Court Cullings.

Court convened on Monday morning at 10 o'clock with President Judge John G. Love presiding, ably supported by Associates Faulkner and Rich. Owing to the snow blockade on most of the railroads, very few jurymen were able to get here so that it was impossible to transact any business by jury, but the time was taken up with the hearing of petitions, etc., which were presented for the approval of the court.

At 2 o'clock the jury trials began, the first case being that of A. Walter, cashier, vs. Elias Stambach's heirs, John B. Linn, Esq., for plaintiff and Clement Dale, Esq., for defendants. The jury found for the plaintiff in the sum of $116.05.

The case of the Commonwealth against Richard Fink, was then called. The case was adultery and f. and b., opinion as to his guilt and innocence being about equally divided. W. J. Singer conducted the case for the Commonwaalth and Clement Dale and J. C. Meyer, defended the prisoner, and so ably did they acquit themselves of their task that the jury returned a verdict of not guilty, and the county pay the costs. The verdict is thought to have been a just one.

Com. vs. Richard Cleman and William Swarm, assault and battery. Cleman being sick the case against Swarm was tried and the jury returned a verdict of guilty of assault.

Com. vs. Henry L. Barger, causing alienation and separation. W. J. Singer and W. F. Reeder represented the commonwealty and Hon. A. O. Furst the defendant, Mr. Charles Verdorfer. The case is now on trial.

Narrow Escape From Freezing.

Amos Mingle and David Ross, of Birmingham, with five of their children, and with Blair Mingle as driver, left Birmingham on Friday in a sled, for Pennsylvania Furnace, to attend the funeral of a relative. On their attempt to return Saturday they met with a terrible experience in the snow and cold.

When near Franklinville the sled became lodged in a snow drift and it was impossible to extricate it. The horses, a fine team belonging to John Trimble, were so deeply anchored in the snow that they could not budge the sled nor even find their way out of the drift unencumbered. The occupants of the sled were almost frozen to death.

Messrs. Mingle and Ross managed to make their way to a house near the place where they were blocked, and they carried the children to this place of safety. The little ones were so benumbed by the cold that they had to be placed in water to be thawed out. While the men took the children to the house Blair Mingle remained with the team and when they returned they found him lying stiff and almost frozen to death in the sled. He was taken with all possible haste to the house and restoratives were applied. The horses had to be literally shoveled out of their tracks.

The unfortunate party had not yet reached their homes at Birmingham today, but by careful treatment they have been brought out of danger of fatal consequences of their experience. It was a narrow escape.—Tyrone *Herald*,

The Minstrels.

The Bellefonte Minstrels were strictly in it Friday night. They had the biggest house ever had in Bellefonte and the performance of the young men inproves with each appearance. Most all of the old jokes have been shelved and the new ones cracked were not one bit wormy. To give the performance in detail would take up more time and space than we can spare but every man in the company is deserving of commendation. Of course there were as in all shows, the stars of the occasion, but the difference was not great enough to particularize. The company expect to repeat the performance at an early date, when they will again undoubtedly be greeted with a crowded house.

Drop Party Lines.

Chicago, January 20.—The following telegram signed by all the bankers in Chicago, was this afternoon forwarded to Senators Palmer and Cullom and Congressman Aldrich:

"The bakers of Chicago respectfully urge the members of the senate and house irrespective of party to unite in the immediate passage of a bill in conformity with the president's message. Business interests of the country demand such action."

A message of like important signed by merchants was also telegraphed to the same gentlemen this evening.

With Emphasis
we say that Ripan's Tabules the best and standard remedy for stomach and liver troubles, will cure your bilious attack. One tabule gives relief.

THE BOROUGH PRIMARIES.

Some Election Contests and Many Revulsions. The Men Nominated By Both Parties.

The incidents connected with the holding of the borough primaries Saturday evening were eruptionary in character and contrary to the expectations of a good many in conclusion. There were some few exciting contests principally among the Republicans in the West ward, where there are two distinct factions, and among the democrats in the South ward, where a new Tammany has sprung up; but as it was in New York the tiger, although it lashed its tail in demonical fury, creating considerable excitement and consternation the animal was finally caught in the toils and is now again caged *a la* New York City. And while the South and the West were having their own interesting contests staid old North, with all the dignity of a retired French president simply met in caucus and nominated a full ticket just as if everything had been written on the slate before hand and all that was left for the voters to do was to put in an appearance and "so we all say."

There seemed to be a disposition everywhere to allow all present incumbents in office to retire on their honors and the only persons who now stand even a chance of being returned are W. T. Hillibish and Al. S. Garman to council, and Charles F. Cook, for treasurer, they being the only re-nominations made. For overseer of the poor, Harshberger defeated McClure and for Justice of the Peace in the South and West wards S. A. McQuistion defeated John Keichline; and so it was with the minor offices. The nominations as made by both parties are as follows.

REPUBLICAN—BOROUGH.

Poor Overseer—H. H. Harshberger.
Auditor—E. R. Chambers.
Treasurer—Charles F. Cook.
High Constable—I. Newton Haupt.

NORTH WARD.

Judge of Election—H. H. Schreyer.
Inspector—Lee B. Woodcock.
Assessor—S. A. Bell.
School Director—Isaac Underwood.
Council—Harry Keller.

SOUTH WARD.

Judge of Election—Thomas Donachy.
Inspector—J. S. McCargar.
Assessor—Henry Lowery.
School Director—Wm. Steele.
Council—J. A. Aiken.

WEST WARD.

Judge of Election—S. H. Diehl.
Inspector—Walter H. Crosthwaite.
Assessor—A. V. Smith.
School Director—R. S. Brouse.
Council—W. T. Hillibish.
Justice of the Peace for the South and West wards—John Kline.

DEMOCRATIC—BOROUGH

Poor Overseer—Robert Hepburn.
Auditor—Wm. Howley.
Treasurer—Herman Holtz.
High Constable—Michael Berger.

NORTH WARD.

Judge of Election—W. H. Bickle.
Inspector—Wm. Runkle.
Assessor—D. W. Woodring.
School Director—J. H. Wetzel.
Council—Morris Cowdrick.

SOUTH WARD.

Judge of Election—John Bauer.
Inspector—Frank Naginey.
Assessor—James McCafferty.
School Director—Dr. G. E. Ward.
Council—Al. S. Garman.

WEST WARD.

Judge of Election—J. K. Barnhart.
Inspector—J. E. Miller.
Assessor—J. R. Scheffler.
School Director—F. P. Blair.
Council—M. A. Kirk.
Justice of the Peace for South and West wards—S. A. McQuistion.

Jack Johnson Recaptured.

It will be remembered that a big burly colored man, one of a party of three that Charley Swigert was conducting to the jail at this place some weeks ago, jumped the train at Fleming on the way down the valley and escaped notwithstanding he was given a hard chase for a short distance. Several shots from a revolver only had the effect of hurrying him on more rapidly instead of bringing him to a halt. He is known as Jack Johnson, and was recaptured the other day at Clarksburg, W. Va., and was brought here and landed in Bellefonte jail.

Jack was one of the party who engaged in a riot in a passenger car on the Clearfield road some time ago, and so was another colored man who Charley Swigert arrested at Bellwood Monday and conducted to Bellefonte Tuesday morning. There were a dozen or more engaged in the riot, several of whom were at the time captured and jailed. The others are slowly but surely being gathered up, and it is to be hoped that every one of them will be on hand to get their medicine before Judge Love at the present term of Centre county court, and may the dose size up in severity with that of the racket they kicked up in the car.

Meaning of the Precious Stones.

The meaning attached to the different precious stones are as follows: The garnet is constancy; the amethyst, sincerity; the bloodstone, courage; the sapphire, innocence; the emerald, success; the agate, long life; the cornelian, content; the pearl, tears; the diamond, purity; the opal, sorrow; the turquoise, happiness; the malachite, prosperity.

Change of Passenger Station.

The Beech Creek Railroad has decided to move its passenger station at Jersey Shore, to the general office building at Jersey Shore Junction, in the third ward, and on and after February 4th, 1895, Beech Creek passenger trains will discontinue stopping at the Fall Brook Station at Jersey Shore, in either direction. The ticket office will be removed from the present station, to the new point of stopping passenger trains in the third ward at Jersey Shore.

They Want New Industries.

The people of Howard and vicinity want new industries and want them bad. A card published in the *Hornet*, after giving a description of the town and its location, says:

"To any party who will come to this place and put up a factory that will employ anywhere from one to two hundred men, there will be given this inducement: To start you we will give $500 worth of free labor, and if employment is given two hundred men, will make it $800 or $1,000. And, furthermore, will raise $15,000 in stock. Grounds can be had at a sacrifice and handy to the railroad."

The Fair Will Stolen.

San Francisco, Jan. 29.—The will of the late James G. Fair was stolen from the clerk's office sometime yesterday afternoon and there is not the slightest clew to the perpetrators of the crime. The clerk who was asked to produce the will went to the pigeon-hole where it had been last placed. He took the bulky envelope on which was inscribed, "the late will and testament of James G. Fair," and took it to the desk where the visitor was waiting. When he opened it he was staggered at the contents The precious document was not there. In its place was a lot of worthless paper which had been carefully folded and inserted in the envelope in an attempt to delay the discovery as long as possible.

—There are several cases of typhoid fever in or near Lemont. Miss Fannie Shuey is ill with it at the residence of Mr. Jacob Shuey, and her brother, James Shuey, is also afflicted with the same disease. Both Isaac Shuey and a son, who live in Benner township, are ill.

[Communicated.]

In Memoriam.

Mrs. Amelia P., wife of Mr. Thomas Rhoads, was born at Potter's Mills June 7, 1839, died January 11, 1895, aged 56 years, 7 months and 4 days. A husband and six children are left to mourn their loss. The children are Mrs. William Michaels, Mrs. William Hanley, Albert, Samuel and Nettie E., of Bellefonte, and Ambrose, of Sunbury. Deceased was a daughter of William and Magdalene Wilkinson, and one of a family of ten children. Of these the following survive her: Miss Susan and John Wilkinson, of Bellefonte; Joseph, of Kerrmoor; Harry, of Mifflinburg, and Mrs. Joseph Sheetz and Mrs. James Buck, of Harrisburg. The funeral took place on Monday afternoon, January 14th.

The death of this estimable lady will be greatly mourned, not only by the large circle of relatives, but by numerous friends, but none feel the loss more keenly than her own immediate family.

When the work is all completed
And we hear the kind "well done,"
We shall know when we shall meet them
In the land beyond the tomb.

New Presbyterian Hymnal.

A new hymnal, which is being prepared for use in the Presbyterian churches, is rapidly approaching compilation and all English hymnology has been brought into examination and the most suitable selected. The book is smaller than the old hymnal prepared about twenty-one years ago. It contains about seven hundred hymns, which in selection and arrangement reveal the exhaustive labor. Work has also begun on a hymnal for Sunday schools, which will be brought out as soon as possible after the church hymnal has been completed.

Chicago Dairy Tests.

We learn that the committee on printing of the House of Representatives has agreed to recommend the publication of a small edition of the report upon the Chicago dairy tests, prepared by the testing committee.

As there will doubtless be a great demand for this report, we suggest that such of our readers as desire to possess an authentic record of the greatest dairy test ever conducted in this or any other country, make early application to their representatives in congress for a copy of this report.

Marriage Licenses.

Following is the list of marriage licenses granted by the register of Centre county during the past week:

Daniel E. Royer and Joanna Long, of Potter twp.

Jacob Gutelius, of Mifflinburg, and Lizzie Warren, of Milesburg.

Herbert L. Aikey and Miss Nora Ingram, of Boggs twp

—Don't forget the lecture by Dr. Rolfe in the Presbyterian chapel this evening. It will be the last of the University extension course and the subject will be "Tennyson."
